## Acknowledgments

These tables were prepared by the Center for Behavioral Health Statistics and Quality (CBHSQ), Substance Abuse and Mental Health Services Administration (SAMHSA), U.S. Department of Health and Human Services (HHS), and by RTI International, a registered trademark and a trade name of Research Triangle Institute, Research Triangle Park, North Carolina. Work by RTI was performed under Contract No. HHSS283201300001C. Contributors and reviewers at RTI listed alphabetically include Kevin T. Adams, Tricia Adams, W. Jeremy Aldworth, Katherine J. Asman, Stephanie N. Barnett, Ellen Bishop, Michael R. Bradshaw, Kristen G. Brown, Lisa A. Carpenter, Patrick (Pinliang) Chen, Chuchun Chien, Jennifer Cooney, Devon S. Cribb, Lanting Dai, Teresa R. Davis, Susan L. Edwards, Glynis S. Ewing, Barbara J. Felts, Misty S. Foster, Peter A. Frechtel, Julia M. Gable, Gina M. Geercken, Harper Gordek, Paxton S. Gorsage, Rebecca K. Granger, Rachel M. Harter, Erica L. Hirsch, David C. Hunter (Project Director), Phillip S. Kott, Larry A. Kroutil, Jeffrey S. Laufenberg, Philip K. Lee, Nicole A. Mack, Peilan Chen Martin, Dexter McNutt, Andrew S. Moore, Kayla J. Nowak, Lisa E. Packer, Michael R. Pemberton, Brenda K. Porter, Jeremy D. Porter, Rosanna S. Quiroz, Jessica L. Roycroft, Ana Saravia, Neeraja S. Sathe, Jennifer H. Schoden, Victoria M. Scott, Kathryn E. Spagnola, Jesse L. Speer, Jiantong (Jean) Wang, Lauren K. Warren, Matthew J. Westlake, and Carol L. Woodell. One of the RTI contributors and reviewers, Ellen Bishop, has retired. Contributors at SAMHSA listed alphabetically include Rebecca D. Ahrnsbrak, Jonaki Bose, Barbara Forsyth, Sarra L. Hedden, Joel Kennet, Rachel N. Lipari, Grace E. Medley, Eunice Park-Lee, Kathryn Piscopo, Peter Tice (Project Officer), and Matthew R. Williams. At RTI, Farrah Bullock Mann and Brenda K. Porter formatted the tables; Amber M. Rohloff and Richard S. Straw provided editorial assistance; and Teresa F. Bass, Kimberly H. Cone, Daniel Occoquan, and Pamela G. Tuck provided web conversion and/or document production support.

# Introduction

*Results from the 2017 National Survey on Drug Use and Health: Detailed Tables* is a collection of tables presenting national estimates from the National Survey on Drug Use and Health (NSDUH).<sup>1</sup> These tables present information for youths aged 12 to 17 and adults aged 18 or older (separately and combined) on drug, alcohol, and tobacco use, as well as substance use disorder (SUD), risk and availability of substance use, treatment, health topics, and alcohol consumption.<sup>2</sup> For youths, additional topics include youth experiences and measures on mental health service utilization, major depressive episode (MDE), and treatment for depression (among youths with MDE). For adults, additional topics include measures on any mental illness (AMI), serious mental illness (SMI), AMI excluding SMI, mental health service utilization (i.e., treatment or counseling for mental health issues), suicidal thoughts and behaviors, MDE, treatment for depression (among adults with MDE), and serious psychological distress (SPD). Measures such as the co-occurrence of mental disorders with substance use or with SUDs also are presented for both adults and youths. Measures of these behaviors and characteristics are presented by a variety of demographic, geographic, and other variables. The estimates in the tables include prevalence rates of the behaviors, numbers of persons engaging in these behaviors, and other measures.

A summary report, *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*, accompanies these detailed tables.<sup>3</sup> In that report, information on key definitions (i.e., see the glossary in its Section D) can be found for many of the measures and terms used in these detailed tables and in other 2017 NSDUH documents, along with further analytic details on these measures (see its Section B in particular) and the survey. Where relevant, the glossary provides cross-references between terms and specific question wording for clarity.

In addition to these detailed tables, a first findings report (FFR) for the 2017 NSDUH focuses on key substance use and mental health indicators among persons aged 12 or older.<sup>4</sup>

---

<sup>1</sup> Starting with the 2015 NSDUH, the detailed tables are a combination of the prior detailed tables and the mental health detailed tables. For information on mapping current sections back to pre-2015 sections, refer to the Table Numbering Section of the 2016 detailed tables' introduction at <https://www.samhsa.gov/data/>.

<sup>2</sup> Starting with the 2016 NSDUH, the detailed tables include measures for past year and past month misuse of opioids (heroin use or pain reliever misuse) and opioid use disorder. For more information on potential measurement issues for pain relievers, see Sections B.4.1 and B.4.2 in Section B of the following reference: Center for Behavioral Health Statistics and Quality. (2018). *2017 National Survey on Drug Use and Health: Methodological summary and definitions*. Retrieved from <https://www.samhsa.gov/data/>

<sup>3</sup> See the reference in footnote 2.

(2018). *Key substance use and mental health indicators in the United States: Results from the 2017 National Survey on Drug Use and Health* (HHS Publication No. SMA 18-5068, NSDUH Series H-53). Rockville, MD: Center for Behavioral Health Statistics and Quality, Substance Abuse and Mental Health Services Administration. Retrieved from <https://www.samhsa.gov/data/>

## **SURVEY DESIGN**

A coordinated sample design was developed for the 2014 through 2017 NSDUHs. It is a state-based design with an independent, multistage area probability sample within each state and the District of Columbia. As a result, states are viewed as the first level of stratification. Each state is further stratified into approximately equally populated state sampling regions (SSRs). Creation of each year's multistage area probability sample then involves selecting census tracts within each SSR, census block groups within census tracts, and area segments (i.e., a collection of census blocks) within census block groups. Finally, dwelling units (DUs) are selected within segments, and within each selected DU, up to two residents who are at least 12 years old are selected for interviewing.

This partitioning of states divided the United States into a total of 750 SSRs, which results in 750 degrees of freedom (*df*) for most national estimates presented in these detailed tables. Estimates for mean age of first use and average number of days used are the exception. These estimates are treated differently because of the possibility of smaller sample sizes; therefore, they potentially belong to fewer variance estimation strata, and cell-specific degrees of freedom are used. For more information on degrees of freedom, see Section 6 of the 2016 NSDUH statistical inference report.<sup>5</sup>

The coordinated design for 2014 through 2017 includes a 50 percent overlap in third-stage units (area segments) within each successive 2-year period from 2014 through 2017. The designed overlap slightly increases the precision of estimates of year-to-year trends because of the expected small but positive correlation resulting from the overlapping area segments between successive survey years. The design also allocates more interviews to the largest 12 states (compared with the 1999 to 2013 design). Making the sample sizes more proportional to the state population sizes improves the precision of NSDUH estimates.

Starting in 2014, the allocation of the sample by age group changed. In the 2005 through 2013 NSDUHs, the sample was allocated equally between three age groups: 12 to 17, 18 to 25, and 26 or older. Starting in 2014, the allocation of the NSDUH sample became 25 percent for adolescents aged 12 to 17, 25 percent for adults aged 18 to 25, and 50 percent for adults aged 26 or older. The sample of adults aged 26 or older was further divided into three subgroups: aged 26 to 34 (15 percent), aged 35 to 49 (20 percent), and aged 50 or older (15 percent). These age allocation changes were designed to reflect more closely the actual population distributions by state and age group, so that the precision of estimates overall and for older age groups could be improved.

## **BREAKS IN TRENDS DUE TO QUESTIONNAIRE AND OTHER CHANGES**

NSDUH has undergone changes over the years in order to improve the quality of its data and to address the changing needs of policymakers and researchers with regard to substance use and mental health issues. These changes affect the level of comparability across years and many times cause breaks in trends. Information pertaining to some of the more major changes over the

years as they pertain to the detailed tables are summarized below. For more detailed information on these revisions and changes that do not pertain to the detailed tables, see Sections B and C of the *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>6</sup>

## 2017 Changes and Impact

### Changes to Any Other Prescription Drug Subtype Measures

Starting with the 2015 NSDUH, new tables showing any use and misuse of various types of prescription drug subtypes were added to the detailed tables. During data processing for the 2016 detailed tables, it was discovered that a small number of respondents reported past year misuse of "any other" prescription pain reliever, tranquilizer, stimulant, or sedative, but they specified only the misuse of prescription drugs that corresponded to existing prescription drug subtypes shown in the NSDUH questionnaire or a combination of only the subtypes that were included in the NSDUH questionnaire and over-the-counter (OTC) drugs. As a consequence, these respondents were double-counted because they were included in estimates for "any other" prescription drug and for the relevant prescription drug subtype. For example, if a respondent specified that Vicodin<sup>®</sup> was the only "other" prescription pain reliever that he or she misused in the past year, then the respondent was included in the past year misuse estimates both for hydrocodone products and for other prescription pain relievers. Due to time constraints, a decision was made to revise the issue starting with the 2017 detailed tables. The 2016 detailed tables contain a footnote alerting users about this double-counting. This issue affects the subtype variables for past year misuse but *not* the subtype variables for any past year use because respondents were asked to specify only the names of other prescription drugs that they misused in the past year.

To address this data quality issue in the 2017 detailed tables, [Tables 1.97](#) through [1.116](#) include "any other" prescription drug subtype estimates that have been revised to eliminate the double-counting for both 2016 and 2017 along with a footnote explaining this change. As a result, the 2016 estimates in these 2017 detailed tables may differ from previously published 2016 estimates.

### Changes to Adult Mental Health Outpatient Treatment Measures

Starting with the 2004 NSDUH, three questions were included at the end of the adult mental health service utilization section of the questionnaire (ADMT29a to ADMT30) asking about alternative types of treatment, counseling, or support in the past 12 months for mental health issues. The write-in responses from the OTHER, specify question for other alternative sources of care (ADMT29bSP) have been used since 2004 to logically assign respondents to the three edited service types (inpatient, outpatient, or prescription medication), as applicable. However, the decision was made to *not* use the write-in information from the other alternative sources of care question when defining the three corresponding treatment recodes used in the 2004 detailed tables. Respondents who were logically inferred to have utilized a service type based on write-in data from the other alternative sources of care question were assigned a system

---

<sup>6</sup> See the reference in footnote [2](#).

missing code in the corresponding treatment recode and excluded from the analyses for the detailed tables.

However, starting with the 2010 detailed tables, respondents who were logically inferred to have received outpatient services based on these write-in data for other alternative sources of mental health services were classified as having received outpatient treatment. This same change was not implemented for the inpatient treatment and prescription medication recodes. To address this data quality issue, the 2017 detailed tables include adult mental health outpatient treatment estimates that have been revised to exclude the write-in responses for the other alternative sources of care in 2010 through 2016 consistent with the estimates prior to 2010. As a result, the 2010 to 2016 estimates presented in the 2017 detailed tables may differ from previously published estimates. This update was applied only to the outpatient mental health measures for the 2010 to 2016 NSDUHs; thus, measures derived from the outpatient mental health measure remain unchanged for 2010 to 2016. Starting with the 2017 NSDUH, the updated outpatient mental health measure will be used for all derived measures.

### **Changes to Time Period of Initiation and Substance Use Measures**

Starting with the 2016 NSDUH, time period of initiation and recency of substance use measures for cigarettes, alcohol, marijuana, cocaine, crack, heroin, and lysergic acid diethylamide (LSD) were developed. Estimates for these measures can be found in [Table 3.3](#) of the 2017 detailed tables. These measures are broken into four levels: (1) past year initiate; (2) prior to past year and past year user; (3) prior to past year initiate and lifetime not past year user; and (4) never initiated. Starting with the 2017 detailed tables, the recodes were revised to classify respondents who initiated exactly 365 days prior to the interview date but were lifetime not past year users as prior to past year initiate and lifetime not past year users. Previously, these respondents were classified as nonusers. This change was also retroactively applied to the 2015 and 2016 NSDUH recodes. As a result, the 2016 estimates for the time period of initiation and recency of substance use presented in the 2017 detailed tables may differ from previously published 2016 estimates.

### **Changes to Youth Reasons for Receiving Mental Health Services Measures**

In the 2017 detailed tables, estimates for the reasons for receiving mental health services in the past year among youths who received specific mental health services are presented in [Table 9.4](#). Youths aged 12 to 17 were asked about the reasons for receiving mental health services in two separate questions. As an example, youths were asked the reason they were admitted the last time they stayed overnight or longer in a hospital to receive treatment or counseling for emotional or behavioral problems not caused by alcohol or drugs. Responses included thought about or tried to kill self, felt depressed, felt very afraid and tense, broke rules and "acted out," had eating problems, or some other reason. Youths who responded that there was some other reason for being admitted to the hospital were then asked a follow-up question about what was the other reason for which they stayed overnight in the hospital. These response categories included trouble controlling anger, got into physical fights, problems at home or with family, problems with friends or people other than family or friends, problems at school, or some other reason. These reason measures are not mutually exclusive, meaning that respondents could report multiple reasons for receiving the mental health services. Mental health services are

divided into specialty services (e.g., outpatient or inpatient/residential) or nonspecialty services (e.g., education, general medicine, or child welfare).

During data processing for the 2017 detailed tables, data quality improvements were agreed upon for these measures. One of the improvements included a reclassification of three OTHER, specify levels that are actually defined disorders and are now included as "self-reported mental disorder." Previously, these levels were included as "some other reason." Another improvement allowed for respondents who entered a valid reason for a service type other than "some other reason" in the first question to be assigned a "no" value for the unselected service types in the first question, regardless of how the respondent answered the second question asking about reasons for receiving treatment. These changes were retroactively applied to the 2016 data; therefore, the 2016 estimates presented in the 2017 detailed tables may differ from previously published 2016 estimates. These improvements had little impact on the estimates, and the recodes are considered comparable with previous years.

In addition to the improvements noted above, the specialty mental health and education, general medicine, or child welfare measures were revised to assign some respondents who indicated receiving specialty mental health services and were known to have not received education, general medicine, or child welfare services for the specified reason to the "no" category. Previously, these respondents were assigned a system missing code. This issue occurred only when, in addition to the single nonspecialty mental health service they reported, respondents indicated receiving specialty mental health services and had either missing data for the specific reason or indicated receiving specialty mental health services for the specific reason. This revision was applied retroactively to the 2016 data; therefore, the 2016 estimates for the specialty mental health and education, general medicine, or child welfare measures presented in the 2017 detailed tables may differ from previously published 2016 estimates. Due to the number of respondents recategorized by this change, the recodes for these measures in 2016 and onward are not comparable with the pre-2015 recodes.

### **Changes to Standard Error Estimates**

As with previous detailed tables, a "mixed" method approach for calculating standard errors was implemented in the 2017 detailed tables. An alternative method for estimating the standard error for the total number of persons is applied to a select subset of domains whose size estimates are forced to match their respective U.S. Census Bureau population estimates through the weight calibration process. The standard errors for all other domains are calculated directly in SUDAAN®.<sup>7</sup> For more information on calculating standard errors in the detailed tables and this alternative method, see Section 5 of the 2016 NSDUH statistical inference report.<sup>8</sup> In Tables 5.22 to 5.25 within the 2016 detailed tables, the alternative standard error estimation method was inadvertently applied to the overall race categories that should have been calculated directly in SUDAAN along with the three-way interaction of age by Hispanic origin by race. (Per NSDUH standard practices for detailed tables, standard errors for three-way interactions should be calculated directly in SUDAAN.) In the 2017 detailed tables, standard errors were calculated

---

<sup>7</sup> See the following reference: RTI International. (2012). *SUDAAN®*, Release 11.0 [computer software]. Research Triangle Park, NC: Author.

<sup>8</sup> See the reference in footnote [5](#).

accordingly in [Tables 5.22](#) to [5.25](#); therefore, standard errors of the 2016 total estimates for the non-Hispanic white and non-Hispanic black or African American race categories may differ from those presented in the 2016 detailed tables. The magnitude of change for standard errors of the total estimates for other impacted domains was not large enough to be seen in the detailed table estimates.

## **2016 Changes and Impact**

### **Changes to Specific Prescription Drugs**

To account for changing popularity and availability of specific prescription drugs, NSDUH has been designed to allow for the addition and removal of specific prescription drugs from year to year.<sup>2</sup> The following specific prescription drugs from 2015 were removed because they had been discontinued or were reported infrequently in the 2015 data: Roxicet<sup>®</sup>, Actiq<sup>®</sup>, buspirone, hydroxyzine, meprobamate, and Ritalin<sup>®</sup> SR. Additionally, buprenorphine plus naloxone was added to the prescription pain relievers section. The impact assessment determined that the removal and addition of these drugs did not change the comparability of the prescription drug subtypes or overall pain reliever estimates presented in the detailed tables.

The "any past year use of prescription pain reliever" response option for Tylenol<sup>®</sup> with codeine 3 or 4 was modified to clarify that this drug was not the same as OTC Tylenol<sup>®</sup> in order to reduce potential confusion between these two similarly sounding drug names. As expected, there was a reduction in reports of using Tylenol<sup>®</sup> with codeine 3 or 4. The impact assessment confirmed that codeine products were not comparable between 2015 and 2016, but the overall pain relievers category remained comparable. The lack of comparability for codeine products has been noted in the detailed tables that present estimates for prescription pain relievers, opioids, and prescription psychotherapeutics.

### **Changes to Education Measures**

In 2016, the question about current school enrollment was reworded to clarify the question for younger respondents. Instead of asking, "Are you now attending or are you currently enrolled in school?" the question was revised to ask, "Do you go to school?" The revised question also instructs respondents to answer "yes" if they were "on holiday or break from school, such as spring break or summer vacation, but plan to return when the break is over." Although there was a decrease in the percentage of adolescents aged 12 to 17 who reported currently being enrolled in school between 2015 and 2016, the differences were not marked for adult respondents. As a result, the impact assessment determined that the college enrollment estimates derived from the current school enrollment data are considered comparable.

Additionally, text defining what is included in the term "school" was added for consistency to a different current school enrollment question asked specifically of youths aged 12 to 17. These current enrollment data are used to subset the student characteristic, adult

---

<sup>2</sup> Any specific drug added to or removed from the survey affects the drug screener questions and the main drug section questions.

involvement, and youth perceptions' tables in Section 3 of the detailed tables. The impact assessment determined that the additional text had a negligible effect on the resulting data.

### **Changes to Driving Under the Influence Measures**

Starting with the 2016 NSDUH, respondents who reported past year alcohol use or selected illicit drug use were asked individual questions about driving under the influence of each substance they indicated using. The selected illicit drugs include marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, and methamphetamine. Previously, questions about driving under the influence of illicit drugs did not specify individual drugs and were asked of past year users of illicit drugs, including prescription psychotherapeutics. After analyzing the 2016 estimates for driving under the influence and comparing the results with the 2015 estimates, it was determined that breaks in trends occurred for all measures of driving under the influence, including the measure of driving under the influence of only alcohol.

### **Changes to OxyContin® and Oxycodone Product Estimates**

Starting with the 2016 NSDUH, OxyContin® and oxycodone estimates in the pain reliever subtype detailed tables are based on the imputation-revised OxyContin® use and misuse variables. In the 2015 detailed tables, these estimates were based on the edited OxyContin® use and misuse variables. As a result, the 2015 estimates presented in the 2015 detailed tables may not match those appearing in more recent detailed tables. Although the estimates based on the edited OxyContin® use and misuse variables are not incorrect, the estimates based on the imputation-revised OxyContin® use and misuse variables are recommended.

### **Changes to Standard Error Estimates**

As with previous detailed tables, a "mixed" method approach for calculating standard errors was implemented in the 2016 detailed tables. For more information, see the subsection on Changes to Standard Error Estimates in the 2017 Changes and Impact section. In Tables 1.28 to 1.87 within the 2015 detailed tables, the alternative standard error estimation method was inadvertently applied to some three-way interactions. As previously noted, the standard error for three-way interactions should be calculated directly in SUDAAN per NSDUH standard practices for detailed tables. Tables 1.29 to 1.66 within the 2016 detailed tables calculated standard errors accordingly; therefore, standard errors of the 2015 total estimates for the non-Hispanic white and non-Hispanic black categories may differ from those presented in the 2015 detailed tables.

### **2015 NSDUH Redesign Changes and Impact**

The NSDUH questionnaire underwent a partial redesign in 2015. These changes led to breaks in the comparability of 2015 estimates with estimates from prior years. Due to the breaks in comparability, many estimates from years prior to 2015 have been noted in the detailed tables as not comparable due to methodological changes. These include measures of overall illicit drug use; use of hallucinogens, inhalants, and methamphetamine; misuse of psychotherapeutics; binge and heavy alcohol use overall and among females; smokeless tobacco use; and substance use treatment. Additionally, 2015 estimates by education and current employment have been noted as not comparable with prior years. Other topics, such as the mental health topics, did not undergo major changes and therefore are considered comparable.

The 2015 NSDUH partial redesign also introduced new definitions. For example, changes to the prescription drug section in the 2015 NSDUH resulted in the detailed tables no longer using the term "nonmedical use" and instead using the term "misuse." For more specific information about each of the 2015 NSDUH changes, see Section C of the *2015 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>10</sup>

Starting with the 2015 NSDUH, there was also a change in the focus of the questions for specific prescription psychotherapeutic drugs. The focus shifted from lifetime use of all respondents to use more than 12 months ago among respondents who last misused any prescription drug. This shift appeared to affect the lifetime misuse of prescription drugs and the prescription drug misuse initiation measures. For this reason, starting with the 2015 detailed tables, estimates for lifetime prescription drug use and estimates for initiation of misuse of prescription drugs among individuals who were at risk for initiation are not shown. For more specific information about each of the 2015 changes, see Sections B.4.1 and B.4.2 in Section B of the *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>11</sup>

In order to evaluate the changes from the 2015 redesign, a 12-month questionnaire redesign impact assessment was completed.<sup>12</sup> Analyses found significant differences between 2015 and previous years for the risk and availability variables. It was determined that these measures are not comparable for years prior to 2015.

### **Previous Mental Health Changes and Impact**

Because of additional survey improvements and questionnaire changes to the mental health sections between 2002 and 2012, it is not possible to assess long-term trends for all of the mental health issues. A summary of the changes is described below, but for more detailed information on revisions, see Sections B.4.6 and B.4.7 in Section B of the *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>13</sup>

In 2012, revisions were made to the 2008 to 2011 past year AMI and SMI estimates. Past year mental illness estimates for 2008 through 2011 found in mental health detailed tables and reports published prior to 2012 were based on a prediction model for mental illness developed using the 2008 clinical data from the Mental Health Surveillance Study (MHSS). An improved model was used for estimates starting in 2012. For the 2012, 2013, and 2014 mental health detailed tables and the 2015 to 2017 detailed tables, the 2012 to 2017 estimates and the previous 2008 to 2011 estimates are based on the 2012 model.

It is recommended that the mental illness variables derived from the 2012 model not be used when analyzing variables for past year suicidal thoughts, past year MDE, the Kessler-6

---

<sup>10</sup> See the following reference: Center for Behavioral Health Statistics and Quality. (2016). *2015 National Survey on Drug Use and Health: Methodological summary and definitions*. Retrieved from <https://www.samhsa.gov/data/>

<sup>11</sup> See the reference in footnote 2.

<sup>12</sup> See the following reference: Center for Behavioral Health Statistics and Quality. (2017). *2015 National Survey on Drug Use and Health: Methodological Resource Book (Section 15, 2015 Questionnaire Redesign Impact Assessment, final report, Volumes 1 and 2)*. Retrieved from <https://www.samhsa.gov/data/>

<sup>13</sup> See the reference in footnote 2.

(K6) mental disorder scale, or the World Health Organization Disability Assessment Schedule (WHODAS) scale, and it is also recommended that the mental illness variables derived from the 2012 model not be used when analyzing other closely linked variables (including past year suicide attempts, past year suicide plans, medical treatment for suicide attempts, lifetime MDE, SPD, or components used in the K6 or WHODAS scales). For detailed information on model revisions to the mental illness items, see Section B.4.7 in Section B of *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>14</sup> As with the mental illness estimates based on the 2008 model, the mental illness estimates based on the 2012 model are not comparable with SMI estimates produced from NSDUH data prior to 2004, and SMI estimates were not produced from 2004 to 2007; thus, long-term trend estimates are not available for SMI.

Because of the 2008 questionnaire revisions to the mental health section, several estimates in 2008 (MDE and past 12-month SPD) were affected by context effects. However, an adjustment for the questionnaire changes was applied to estimates of MDE for 2005 to 2008. For more detailed information, see Section B.4.8 in Section B of the *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>15</sup> Therefore, long-term trend estimates for these two measures are available from 2005 through 2017. No additional questionnaire changes from 2009 to 2017 have led to changes in these adult measures. Moreover, no questionnaire changes have been implemented that affected the adult mental health service utilization questions; therefore, estimates of mental health service utilization presented in these detailed tables reflect trends from 2002 to 2017. The only exceptions are estimates that combine mental health data with other topics that are considered not comparable.

No questionnaire revisions affected MDE for youths aged 12 to 17; thus, long-term trend estimates are available from 2004 through 2017. However, revisions to the youth mental health service utilization module of the 2009 NSDUH questionnaire resulted in new estimates and a discontinuation of trends for several items on the source of mental health services. New questions regarding the receipt of mental health services from juvenile justice sources were added in 2009, and questions regarding services from educational sources were revised and are not comparable with estimates prior to 2009.

### **Changes to Previously Published 2006 to 2010 Estimates**

During regular data collection and processing checks for the 2011 NSDUH, data errors were identified that affected the data for Pennsylvania (2006 to 2010) and Maryland (2008 and 2009). Cases with erroneous data were removed from the data files, and the remaining cases were reweighted to provide representative estimates. The errors had minimal impact on the national estimates and no effect on direct estimates for the other 48 states and the District of Columbia, but they had an appreciable effect on estimates for Pennsylvania, Maryland, the mid-Atlantic division, and the Northeast region. Estimates for the Northeast region based on 2006 to 2010 data may differ from previously published estimates. Tables and estimates based only on data since 2011 are unaffected by these data errors. All affected tables (i.e., tables with estimates based on 2006 to 2010 data) contain a note to indicate this to the user. Caution is advised when

---

<sup>14</sup> See the reference in footnote 2.

<sup>15</sup> See the reference in footnote 2.

comparing data from older reports with data from more recent reports that are based on corrected data files.

## **New 2002 Baseline**

Methodological differences implemented in the 2002 NSDUH affected the comparability of the 2002 estimates with prior surveys. Some of the changes included the addition of a \$30 incentive, a change in the survey name from the National Household Survey on Drug Abuse (NHSDA) to the current name, and updated population data from the 2000 decennial census being incorporated into the sample weights. Because of these improvements in the 2002 NSDUH, the 2002 data constitute a new baseline for tracking trends in substance use and other measures. Therefore, estimates from the 2002 through 2017 surveys should not be compared with estimates from the 2001 or earlier surveys to examine changes over time. In addition to the 2002 baseline change, the aforementioned changes may also constitute a new baseline for various measures.

Methodology changes throughout NSDUH's history make it difficult to assess long-term trends from tables presenting data from 1971 to 2017. However, it is instructive to compare NSDUH estimates from 1971 to 2017 by "piecing together" the data from time periods for which data are comparable. Specifically, valid trend comparisons can be made for 1971 to 1998, 1999 to 2001, and 2002 to 2017. With this approach, comparisons between 1998 and 1999, and between 2001 and 2002, should be made with caution because they are potentially biased due to changes in methods. Nevertheless, when these data are combined in a single presentation, it often becomes clear that the effects of the changes in methods are small compared with the major shifts in substance use prevalence that have occurred over the past five decades.

## **TABLE PRESENTATION**

Although the majority of the 2017 detailed tables present estimates from the 2016 and 2017 NSDUHs, some tables include only estimates from the 2017 NSDUH. For measures that broke a trend in the previous year, 2 years of data are now presented. As more comparable years of data become available, multiyear trend tables for measures that had a break in trend will be added. Also included are a number of tables that present data from prior surveys in the series, including a section of tables presenting data mainly from 2002 to 2017 or 2008 to 2017, with a few tables with data with various years starting from 2004 to 2009 and a couple of tables presenting data from 1971 to 2017. The following sections provide information on how the tables are organized, the types of tables that are available, information about specific indicators used for the 2017 detailed tables, information on missingness, information on the impact of rounding on estimates presented in the tables, and how totals are to be interpreted within the tables.

### **Table Numbering**

The detailed tables are numbered using a three-part numbering scheme (e.g., 1.15A). The first part of the table number (**1.15A**) is the subject matter section to which a particular table belongs. The second part (**1.15A**) is the number of the table within a particular section. The third part (**1.15A**) is a table type indicator, an alphabetic letter appended to the table number. Each

table number, as explained below, has multiple table types. Tables are numbered sequentially within each subject matter section. Identical tables across years may not be assigned the same table number each year.

The 12 subject matter sections and the number of tables per section in 2017<sup>16</sup> are as follows:

- Section 1: Illicit Drug Use Tables – 1.1 to 1.116
- Section 2: Tobacco Product and Alcohol Use Tables – 2.1 to 2.53
- Section 3: Risk and Protective Factor Tables – 3.1 to 3.33
- Section 4: Incidence Tables – 4.1 to 4.13
- Section 5: Substance Use Disorder and Treatment Tables – 5.1 to 5.54
- Section 6: Miscellaneous Tables – 6.1 to 6.90
- Section 7: Trend Tables – 7.1 to 7.40
- Section 8: Adult Mental Health Tables – 8.1 to 8.85
- Section 9: Youth Mental Health Tables – 9.1 to 9.15
- Section 10: Adult Mental Health Trend Tables – 10.1 to 10.41
- Section 11: Youth Mental Health Trend Tables – 11.1 to 11.6
- Section 12: Sample Size and Population Tables – 12.1 to 12.9

### **Table Types and Purpose**

The table type indicators are primarily defined as follows; however, some exceptions do exist and are noted in subsequent text.

<b>Table Type</b>	<b>Purpose of the Table</b>
A	Presents estimates of the numbers of persons exhibiting the specified behavior or characteristic (e.g., substance use) in the populations described by the column and row headings.
B	Presents estimates of the percentages of persons exhibiting the specified behavior or characteristic (e.g., substance use) in the populations described by the column and row headings.
C	Presents the standard error associated with each of the estimates in the "A" tables.
D	Presents the standard error associated with each of the estimates in the "B" tables.
N	Presents the number of cases in the specified NSDUH sample with the characteristics defined by the column and row headings.
P	Presents the <i>p</i> values from tests of the statistical significance of differences between columns in the "B" tables.

---

<sup>16</sup> See footnote 1.

The majority of tables within the detailed tables contain five table types (A, B, C, D, and P) as defined above. Note that table type N is used exclusively within Section 12 to display the sample size counts. Exceptions to this organization are noted as follows:

- Section 3 (Risk and Protective Factor Tables) includes tables for which only table types A, B, C, and D are produced ([Tables 3.22](#) to [3.33](#)). These tables present estimates for the 2017 NSDUH only; thus, these are not trend tables, so significance tests between years are not relevant and table type P is not applicable.
- Section 4 (Incidence Tables) contains both tables for which only table types A and C are produced and tables for which only table types B, D, and P are produced. Specifically, one subset of tables ([Tables 4.9](#) to [4.12](#)) includes table types A and C. This subset of tables presents the number of past year initiates in table type A and the associated standard errors in table type C. The remaining Section 4 tables include only table types B, D, and P. [Tables 4.1](#) to [4.8](#) present numbers and percentages of past year initiates in table type B, associated standard errors for each of these estimates in table type D, and *p* values from tests of statistical differences between years in table type P. [Table 4.13](#) presents the mean age for past year initiates in table type B, associated standard errors in table type D, and *p* values from tests of statistical differences between years in table type P.
- Section 5 (Substance Use Disorder and Treatment Tables) includes one subset of tables for which table type A contains both numbers and percentages, where the percentages are repeated in the B table and another subset of tables for which only table types A, B, C, and D are produced. Specifically, one subset of tables ([Tables 5.42](#) to [5.45](#), [5.47](#) and [5.48](#), and [5.50](#) and [5.51](#)) presents estimates among all persons and percentages among persons who needed treatment in the type A tables, where the percentages are repeated in the B tables. The other subset of tables ([Tables 5.53](#) and [5.54](#)) presents estimates for the 2017 NSDUH only; thus, these are not trend tables, so significance tests between years are not relevant and table type P is not applicable.
- Section 6 (Miscellaneous Tables) contains tables for which estimates are repeated in the A and B tables. Specifically, one subset of tables ([Tables 6.1](#) to [6.8](#)) repeats the estimates for the average number of days used in the A and B tables and in the C and D tables. The other subset of tables ([Tables 6.45](#) and [6.46](#)) presents estimates among all persons and percentages among prior year marijuana users in [Table 6.45](#) and estimates among all persons and percentages among past month cigarette smokers in [Table 6.46](#), where the percentages are repeated in the corresponding B tables.
- Section 7 (Trend Tables) contains one subset of tables for which estimates are repeated in the A and B tables, one subset of tables for which only table types B, D, and P are produced, and one subset of tables for which only table types B and D are produced. Specifically, one subset of tables ([Tables 7.21](#), [7.22](#), and [7.24](#)) repeats the estimates for the average number of days used in the A and B tables and in the C and D tables. A second subset of tables ([Table 7.33](#)) includes multiyear tables that involve only table types B, D, and P. [Table 7.33](#) presents the mean age at first substance use for past year initiates in table type B, associated standard errors for each of these estimates in table type D, and *p* values from tests of statistical differences between years in table type P. The last subset of tables ([Tables 7.39](#) and [7.40](#)) are multiyear tables that present estimated

percentages for 1971 to 2017 in table type B and associated standard errors in table type D. The estimated total number of users and associated standard errors are not presented, nor are between-year significance tests implemented; thus, table types A, C, and P are not used.

- Section 12 (Sample Size and Population Tables) contains only table types A, C, and N. Population counts, standard errors, and sample sizes are displayed in table types A, C, and N, respectively. Percentages of the population and associated standard error tables are not provided in this section.

## Table Indicators

Each 2017 detailed table, including those for all of the above table types, contains the following definitional footnote, regardless of whether any or all of the indicators were used in the table:

\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

The "\* = low precision" portion of the footnote indicates an estimate is being suppressed (i.e., not shown) due to low precision.

The "-- = not available" portion of the footnote indicates that for the given year, the questions used to produce the estimates were not available. For example, prior to 2015, respondents were not asked about having a past year methamphetamine use disorder. Thus, for 2014 and earlier years, those estimates are shown with the "--" notation.

The "da = does not apply" portion of the footnote indicates that the question or estimate does not apply to a certain group. For example, in pregnancy tables, the trimester estimates are shown as "da" for overall females and nonpregnant females, and in the incidence tables that show numbers in thousands and percentages in the same table, the *p* values for the numbers in thousands are replaced with "da" because the detailed tables only show *p* values of tests of differences of percentages.

The "nc = not comparable due to methodological changes" portion of the footnote indicates that estimates for the measure do exist for prior years, but they are no longer comparable with the current year estimate. For example, illicit drug use estimates are available for all years in the detailed tables, but the 2015 through 2017 estimates are not comparable with the 2002 through 2014 estimates due to questionnaire changes. Thus, the 2014 and prior year estimates are shown with the "nc" notation.

The "nr = not reported due to measurement issues" portion of the footnote indicates that the estimate could be calculated based on available data but is not calculated due to potential measurement issues. For example, lifetime use of prescription pain relievers for 2015 through 2017 is shown as "nr" because the questionnaire was changed to focus on past year misuse of pain relievers rather than lifetime past year use of pain relievers, and there appears to be an underestimate of lifetime pain reliever use compared with prior years.

For more information on how low precision is defined and further details on the changes noted above, see Section B.2.2 in Section B and Section C of the *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>17</sup>

Additionally, all type A and B detailed tables where significance testing was performed between years contain the following footnotes, regardless of whether any difference was significant:

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

Tables where significance testing was not performed between years, such as those with only a single year, do not contain these footnotes.

## **Missingness**

Some measures are not defined for all respondents and have missing data. In the detailed tables, a footnote or note is included to alert a user to the fact that missing data were excluded from the analysis. For the 2017 NSDUH, an investigation was completed to look at missing data rates in the 2017 detailed tables. The investigation was done for all 2017 measures that underwent data quality improvements (i.e., variables on adult mental health outpatient treatment, risk and availability among the time period of initiation and recency, and the reasons for receiving the most recent mental health services for youths). The level of missingness in these measures was similar or lower than the level from previous evaluations. More information about these data quality improvements can be found in the section on 2017 Changes and Impact.

For other measures, the results from the 2014 through 2016 investigations were assumed to still hold. That is, missing data were not a concern for most topics. However, a few items did have a slightly higher rate of missing data (e.g., items on perceived availability of various illicit drugs, items on the source of prescription drugs obtained for most recent use, and items on reasons for receiving most recent mental health services for youths). Specifically, less than 5 percent of the risk, availability, and protective factor subpopulations evaluated in 2016 had both weighted and unweighted missingness rates above 5 percent. The highest weighted rate of numerator missingness was 7.8 percent. These percentages were similar to the results for the risk, availability, and protective factor measures from the 2015 investigation and the risk and availability among the time period of initiation and recency domains included in the 2017 investigation. The exclusion of respondents with missing data induces a negative bias for estimates of population totals and may induce a bias in either direction for estimates of population means and proportions. For more information on missingness, see Chapter 4 of the 2016 NSDUH statistical inference report.<sup>18</sup>

---

<sup>17</sup> See the reference in footnote [2](#).

<sup>18</sup> See reference in footnote [5](#).

## **Rounding and Effect on Significance Testing**

Prevalence estimates in the form of percentages are presented rounded to the nearest tenth of a percent, and total estimates are rounded to the nearest thousand. Due to this rounding, prevalence estimates of 0.0 percent and total estimates of 0 are displayed in the tables. These estimates are rounded down from a percentage  $< 0.05$  percent or  $< 50$ , respectively, and do not represent an absence of persons displaying a particular characteristic. Nonrounded estimates of zero are suppressed.

Testing between two prevalence estimates can indicate significant differences involving estimates that appear identical when rounded but are actually different. Note that similar results can be seen in the average age-at-first-use estimates and the estimates for the average number of days used, which are also rounded to the nearest tenth, and the total estimates. For example, in [Table 1.12B](#), the estimate for past month Ecstasy use among adults aged 35 or older was 0.0 percent for both 2016 and 2017 and was indicated as significantly different. Although the rounded estimates appear the same, the unrounded estimates were 0.00015 percent for 2016 and 0.00045 percent for 2017. Another example in [Table 7.3B](#), a trend table in the 2017 detailed tables, shows how seemingly identical estimates from previous years can differ in significance when each is compared against the current year's estimate. The estimate for past month crack use among people aged 12 or older was 0.1 percent for 2008, 2010, 2011, 2013, 2014, and 2015, but only the 2011 estimate was significantly different from the 2017 estimate of 0.2 percent. Although the rounded estimates for 2008, 2010, 2011, 2013, 2014, and 2015 appeared to be the same, the unrounded estimates were 0.145 percent for 2008, 0.149 percent for 2010, 0.089 percent for 2011, 0.144 percent for 2013, 0.134 percent for 2014, and 0.147 percent for 2015; moreover, each of these estimates had varying standard errors that affected the testing. Note that differences in precision can also cause seemingly identical (or identical) previous year estimates to differ in significance when compared with the current year's estimate.

## **Definitions of Totals**

Totals are defined in different ways within the detailed tables. Totals can refer to the estimated number of persons with a specific characteristic, as shown in detailed table type A and displayed in numbers of thousands. For example, in [Table 2.2](#), the total estimated population of youths aged 12 to 17 who used cigarettes in the past year in 2017 was approximately 1,567,000 and shown as 1,567. Totals can also be presented in the table rows or columns, either as a total of a subgroup category or listed as the "Total Population." If the estimate is a total of a subgroup category (e.g., total of gender), the estimate is the total number of both males and females combined. Instances where measures have missing data may cause the subcategories to not add up to a total and are noted in the tables. If the estimate is shown as the "Total Population" on the row, then that estimate is usually included as a reference for tables with a nonstandard denominator. This total population estimate is normally the number being used in the nonstandard denominator to allow users to easily see that estimate without having to switch tables. For example, in [Table 8.53](#), the total population row for table type A shows the estimated number of persons who fit the criteria in the columns, which are the table denominators (i.e., 13,475,000 adults reported a perceived unmet need for mental health services in the past year for 2017), and this number is used as the denominator in all the reason estimates.

## **LOCATING A TABLE**

The detailed tables consist of prevalence estimates (table types A and B), standard errors and  $p$  values (table types C, D, and P), and sample sizes (table type N). The tables (all types) are organized by subject matter sections. A total of 12 subject matter sections are available for 2017, and a pair of methods can be used to locate and access a table of interest within the PDF version of the detailed tables.

### **Subject Matter Sections**

If a user knows which of the 12 subject matter sections is of interest, then he or she can click directly on the bookmark for that subject matter section. This will take the user to the index of tables for that section. This index can be used to identify the group of tables in which the desired table is likely to be located. Clicking on the appropriate link will take the user directly to the first table in the specified group where he or she then can scroll through the tables to locate the table of interest. The group links will provide the user access to the prevalence estimate tables. To access the corresponding standard error and  $p$  value tables, a user must click on the "SE" link associated with that group link.

The 12 subject matter sections are as follows:

Section 1: Illicit Drug Use Tables – 1.1 to 1.116

Section 2: Tobacco Product and Alcohol Use Tables – 2.1 to 2.53

Section 3: Risk and Protective Factor Tables – 3.1 to 3.33

Section 4: Incidence Tables – 4.1 to 4.13

Section 5: Substance Use Disorder and Treatment Tables – 5.1 to 5.54

Section 6: Miscellaneous Tables – 6.1 to 6.90

Section 7: Trend Tables – 7.1 to 7.40

Section 8: Adult Mental Health Tables – 8.1 to 8.85

Section 9: Youth Mental Health Tables – 9.1 to 9.15

Section 10: Adult Mental Health Trend Tables – 10.1 to 10.41

Section 11: Youth Mental Health Trend Tables – 11.1 to 11.6

Section 12: Sample Size and Population Tables – 12.1 to 12.9

### **Reference Tools**

If a user needs more detailed information on which subject matter section to enter, he or she can click on the "Reference Tools" bookmark to learn about various other tools available for locating a specific table of interest. These tools include a key to selected variables and a list of tables. For information on key definitions (i.e., the glossary) for many of the measures and terms

used in the detailed tables, see Section D of the *2017 National Survey on Drug Use and Health: Methodological Summary and Definitions*.<sup>19</sup>

The key to selected variables defines key topics (e.g., demographics) used throughout the 2017 detailed tables. As mentioned earlier, the glossary defines and cross-references many key measures used in the 2017 detailed tables and the 2017 FFR. Both the key and the glossary may be helpful when used in conjunction with the table index in identifying tables that contain information for selected measures. However, not all measures and terms listed in the key and the glossary are specifically mentioned in the table index. The list of tables can be used to identify a specific table for one of the subject matter sections. Once the desired table has been located using the reference tools, the user then should follow the directions provided earlier in the section on the "Subject Matter Sections" to access the table.

Note that once a group of prevalence estimate tables is accessed, there is no direct link to the corresponding standard error and  $p$  value tables (and vice versa). If the user wishes to see the corresponding prevalence estimate, standard error and  $p$  value, or sample size and population tables, it will be necessary first to click on the appropriate subject matter bookmark, then to select the new group that contains the table of interest.

---

**Index of Section 1 Tables: Illicit Drug Use (1.1 to 1.116)**

<b>Illicit Drug Use Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding Multiyear Trend Table(s) Available in Section 7<sup>1</sup></b>
<a href="#">Lifetime, past year, and past month illicit drug use, by selected age categories and gender</a>	1.1 to 1.14	<a href="#">SE</a>	Yes
<a href="#">Selected illicit drugs, by detailed age categories</a>	1.15 to 1.27	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of prescription psychotherapeutics, by selected age categories</a>	1.28	<a href="#">SE</a>	Yes
<b>Selected illicit drugs, by demographic characteristics</b>	<b>1.29 to 1.66</b>		
<a href="#">Illicit drugs</a>	1.29 to 1.31	<a href="#">SE</a>	Yes
<a href="#">Marijuana</a>	1.32 to 1.34	<a href="#">SE</a>	Yes
<a href="#">Cocaine</a>	1.35 to 1.37	<a href="#">SE</a>	Yes
<a href="#">Crack</a>	1.38 to 1.40	<a href="#">SE</a>	Yes
<a href="#">Hallucinogens</a>	1.41 to 1.43	<a href="#">SE</a>	Yes
<a href="#">Inhalants</a>	1.44 to 1.46	<a href="#">SE</a>	Yes
<a href="#">Methamphetamines</a>	1.47 to 1.49	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of prescription psychotherapeutics</a>	1.50 to 1.52	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of pain relievers</a>	1.53 to 1.55	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of tranquilizers</a>	1.56 to 1.58	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of stimulants</a>	1.59 to 1.61	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of sedatives</a>	1.62 to 1.64	<a href="#">SE</a>	Yes
<a href="#">Misuse of opioids</a>	1.65 and 1.66	<a href="#">SE</a>	Yes
<b>Selected illicit drugs, by geographic and socioeconomic characteristics</b>	<b>1.67 to 1.95</b>		
<a href="#">Illicit drugs</a>	1.67 and 1.68	<a href="#">SE</a>	Yes
<a href="#">Marijuana</a>	1.69 and 1.70	<a href="#">SE</a>	Yes
<a href="#">Cocaine</a>	1.71 and 1.72	<a href="#">SE</a>	Yes
<a href="#">Crack</a>	1.73	<a href="#">SE</a>	Yes
<a href="#">Hallucinogens</a>	1.74	<a href="#">SE</a>	Yes
<a href="#">Inhalants</a>	1.75 and 1.76	<a href="#">SE</a>	Yes
<a href="#">Methamphetamines</a>	1.77 and 1.78	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of prescription psychotherapeutics</a>	1.79 to 1.81	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of pain relievers</a>	1.82 to 1.84	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of tranquilizers</a>	1.85 to 1.87	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of stimulants</a>	1.88 to 1.90	<a href="#">SE</a>	Yes
<a href="#">Any use/misuse of sedatives</a>	1.91 to 1.93	<a href="#">SE</a>	Yes
<a href="#">Misuse of opioids</a>	1.94 and 1.95	<a href="#">SE</a>	Yes
<a href="#">Specific lifetime hallucinogen, inhalant, needle, heroin, and other drug use, by selected age categories</a>	1.96	<a href="#">SE</a>	Yes

See note at end of table.

(continued)

**Index of Section 1 Tables: Illicit Drug Use (1.1 to 1.116) (continued)**

<b>Illicit Drug Use Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding Multiyear Trend Table(s) Available in Section 7<sup>1</sup></b>
<b>Prescription psychotherapeutic subtypes, by selected age categories</b> <a href="#">Any use/misuse of pain relievers</a> <a href="#">Any use/misuse of tranquilizers</a> <a href="#">Any use/misuse of stimulants</a> <a href="#">Any use/misuse of sedatives</a>	<b>1.97 to 1.116</b> 1.97 to 1.101 1.102 to 1.106 1.107 to 1.111 1.112 to 1.116	<a href="#">SE</a> <a href="#">SE</a> <a href="#">SE</a> <a href="#">SE</a>	Yes Yes Yes Yes

<sup>1</sup> "Yes" indicates that at least one estimate from the table(s) in Section 1 is also found in Section 7, but the Section 7 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

## Index of Section 2 Tables: Tobacco Product and Alcohol Use (2.1 to 2.53)

Tobacco Product and Alcohol Use Table	Table Number	Link to Corresponding Standard Error (SE) Table	Corresponding Multiyear Trend Table(s) Available in Section 7 <sup>1</sup>
<a href="#">Lifetime, past year, and past month tobacco product and alcohol use, by selected age categories and gender</a>	2.1 to 2.14	<a href="#">SE</a>	Yes
<a href="#">Selected tobacco product and alcohol use, by detailed age categories</a>	2.15 to 2.20	<a href="#">SE</a>	Yes
<b>Selected tobacco product and alcohol use, by demographic characteristics</b>	<b>2.21 to 2.37</b>		
<a href="#">Tobacco products</a>	2.21 to 2.23	<a href="#">SE</a>	Yes
<a href="#">Cigarettes</a>	2.24 to 2.26	<a href="#">SE</a>	Yes
<a href="#">Smokeless tobacco</a>	2.27 to 2.29	<a href="#">SE</a>	Yes
<a href="#">Cigars</a>	2.30 to 2.32	<a href="#">SE</a>	Yes
<a href="#">Alcohol</a>	2.33 to 2.37	<a href="#">SE</a>	Yes
<b>Selected tobacco product and alcohol use, by geographic and socioeconomic characteristics</b>	<b>2.38 to 2.49</b>		
<a href="#">Tobacco products</a>	2.38 and 2.39	<a href="#">SE</a>	Yes
<a href="#">Cigarettes</a>	2.40 and 2.41	<a href="#">SE</a>	Yes
<a href="#">Smokeless tobacco</a>	2.42 and 2.43	<a href="#">SE</a>	Yes
<a href="#">Cigars</a>	2.44 and 2.45	<a href="#">SE</a>	Yes
<a href="#">Alcohol</a>	2.46 to 2.49	<a href="#">SE</a>	Yes
<a href="#">Underage and legal drinkers' alcohol use, by demographic characteristics</a>	2.50 and 2.51	<a href="#">SE</a>	Yes
<a href="#">Underage and legal drinkers' alcohol use, by geographic and socioeconomic characteristics</a>	2.52 and 2.53	<a href="#">SE</a>	Yes

<sup>1</sup> "Yes" indicates that at least one estimate from the table(s) in Section 2 is also found in Section 7, but the Section 7 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

### Index of Section 3 Tables: Risk and Protective Factors (3.1 to 3.33)

Risk and Protective Factor Table	Table Number	Link to Corresponding Standard Error (SE) Table	Corresponding Multiyear Trend Table(s) Available in Section 7 <sup>1</sup>
<b>Perceived risk and availability of substances</b>	<b>3.1 to 3.8</b>		
<a href="#">Perceived risk and availability, by selected age categories</a>	3.1 and 3.2	<a href="#">SE</a>	No
<a href="#">Perceived risk and availability, by specific substance use initiation</a>	3.3	<a href="#">SE</a>	No
<a href="#">Perceived risk, by demographic and geographic characteristics</a>	3.4 to 3.7	<a href="#">SE</a>	No
<a href="#">Perceived availability, by demographic and geographic characteristics</a>	3.8	<a href="#">SE</a>	No
<b>Risk and protective factors, by demographic and geographic characteristics</b>	<b>3.9 to 3.21</b>		
<a href="#">Disapproval of substance use behavior</a>	3.9 to 3.11	<a href="#">SE</a>	Yes
<a href="#">Prevention programs/messages</a>	3.12 and 3.13	<a href="#">SE</a>	Yes
<a href="#">Delinquent behavior</a>	3.14 and 3.15	<a href="#">SE</a>	No
<a href="#">Youth behaviors</a>	3.16	<a href="#">SE</a>	No
<a href="#">Religious beliefs</a>	3.17	<a href="#">SE</a>	No
<a href="#">Parental involvement in specific behaviors</a>	3.18	<a href="#">SE</a>	No
<a href="#">Student characteristics</a>	3.19	<a href="#">SE</a>	Yes
<a href="#">Adult involvement in specific school-related behaviors</a>	3.20	<a href="#">SE</a>	No
<a href="#">Substance use of students in grade level</a>	3.21	<a href="#">SE</a>	No
<b>Past month substance use and risk and protective factors</b>	<b>3.22 to 3.33</b>		
<a href="#">Substance use, by perceived risk and availability of substances</a>	3.22 and 3.23	<a href="#">SE</a>	No
<a href="#">Perceived availability, by substance use</a>	3.24 to 3.28	<a href="#">SE</a>	No
<a href="#">Substance use, by disapproval of substance use behavior</a>	3.29 and 3.30	<a href="#">SE</a>	No
<a href="#">Substance use, by prevention programs/messages and delinquent behavior</a>	3.31	<a href="#">SE</a>	No
<a href="#">Substance use, by selected youth behavior, religious beliefs, and parental involvement in specific behaviors</a>	3.32	<a href="#">SE</a>	No
<a href="#">Substance use, by student characteristics, adult involvement in specific school-related behaviors, and substance use of students in grade level</a>	3.33	<a href="#">SE</a>	No

<sup>1</sup> "Yes" indicates that at least one estimate from the table(s) in Section 3 is also found in Section 7, but the Section 7 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

**Index of Section 4 Tables: Incidence (4.1 to 4.13)**

<b>Incidence Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding Multiyear Trend Table(s) Available in Section 7<sup>1</sup></b>
<b>Past year initiation of substance use</b>	<b>4.1 to 4.13</b>		
<a href="#">Initiation of selected substances among persons aged 12 or older, persons at risk for initiation, and past year users, by selected age categories and gender</a>	4.1 to 4.3	<a href="#">SE</a>	Yes
<a href="#">Initiation among selected age categories, persons at risk for initiation,<sup>2</sup> and past year users</a>	4.4 to 4.8	<a href="#">SE</a>	Yes
<a href="#">Initiation among persons aged 12 or older, by gender</a>	4.9	<a href="#">SE</a>	Yes
<a href="#">Initiation among persons aged 12 or older who initiated use prior to a selected age, by gender</a>	4.10 and 4.11	<a href="#">SE</a>	No
<a href="#">Initiation among persons aged 12 to 49, by gender</a>	4.12	<a href="#">SE</a>	No
<a href="#">Mean age at first substance use among past year initiates aged 12 to 49, by gender</a>	4.13	<a href="#">SE</a>	Yes

<sup>1</sup> "Yes" indicates that at least one estimate from the table(s) in Section 4 is also found in Section 7, but the Section 7 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

<sup>2</sup> Due to measurement issues, At Risk for Initiation is not estimated for misuse of prescription drugs. See Section B of the following reference: Center for Behavioral Health Statistics and Quality. (2018). *2017 National Survey on Drug Use and Health: Methodological summary and definitions*. ## Index of Section 5 Tables: Substance Use Disorder and Treatment (5.1 to 5.54)

Substance Use Disorder and Treatment Table	Table Number	Link to Corresponding Standard Error (SE) Table	Corresponding Multiyear Trend Table(s) Available in Section 7 <sup>1</sup>
<a href="#">Substance use disorder</a>	5.1 to 5.9	<a href="#">SE</a>	Yes
<b>Received substance use treatment</b>	<b>5.10 to 5.20</b>		
<a href="#">Treatment, by detailed age categories and demographic, geographic, and socioeconomic characteristics</a>	5.10 to 5.15	<a href="#">SE</a>	No
<a href="#">Type of treatment</a>	5.16	<a href="#">SE</a>	
<a href="#">Specific substance for last or current treatment</a>	5.17	<a href="#">SE</a>	No
<a href="#">Location of treatment</a>	5.18 to 5.20	<a href="#">SE</a>	No
<b>Received substance use treatment at a specialty facility</b>	<b>5.21 to 5.35</b>		
<a href="#">Treatment, by detailed age categories and demographic, geographic, and socioeconomic characteristics</a>	5.21 to 5.26	<a href="#">SE</a>	No
<a href="#">Type of treatment</a>	5.27	<a href="#">SE</a>	No
<a href="#">Specific substance for last or current treatment</a>	5.28	<a href="#">SE</a>	No
<a href="#">Location of treatment</a>	5.29 to 5.31	<a href="#">SE</a>	No
<a href="#">Source of payment for last or current treatment</a>	5.32 to 5.34	<a href="#">SE</a>	No
<a href="#">Treatment, by substance use disorder</a>	5.35	<a href="#">SE</a>	No
<b>Received substance use treatment at any location or a specialty facility</b>	<b>5.36 to 5.41</b>		
<a href="#">Type of treatment</a>	5.36	<a href="#">SE</a>	No
<a href="#">Type of treatment at specialty/nonspecialty facility</a>	5.37 to 5.40	<a href="#">SE</a>	No
<a href="#">Treatment, by substance use disorder</a>	5.41	<a href="#">SE</a>	No
<b>Needed and received treatment or perceived need for treatment and made effort to get treatment</b>	<b>5.42 to 5.54</b>		
<a href="#">Illicit drug</a>	5.42 to 5.46	<a href="#">SE</a>	No
<a href="#">Alcohol</a>	5.47 to 5.49	<a href="#">SE</a>	No
<a href="#">Substance use (illicit drug or alcohol)</a>	5.50 to 5.52	<a href="#">SE</a>	No
<a href="#">Reasons for not receiving substance use treatment</a>	5.53 and 5.54	<a href="#">SE</a>	No

<sup>1</sup> "Yes" indicates that at least one estimate from the table(s) in Section 5 is also found in Section 7, but the Section 7 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

**Index of Section 6 Tables: Miscellaneous (6.1 to 6.90)**

<b>Miscellaneous Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding Multiyear Trend Table(s) Available in Section 7<sup>1</sup></b>
<a href="#">Frequency of use/misuse and average number of days used</a>	6.1 to 6.8	<a href="#">SE</a>	Yes
<a href="#">Prescription psychotherapeutic any use/misuse, by substance use</a>	6.9 to 6.13	<a href="#">SE</a>	No
<a href="#">Illicit drugs, by cigarette use</a>	6.14 to 6.18	<a href="#">SE</a>	No
<a href="#">Illicit drugs, by alcohol use</a>	6.19 to 6.23	<a href="#">SE</a>	No
<a href="#">Illicit drugs among alcohol users</a>	6.24	<a href="#">SE</a>	No
<a href="#">Drugs used with or within 2 hours of alcohol use</a>	6.25	<a href="#">SE</a>	No
<a href="#">Illicit drugs, by cigarette and alcohol use</a>	6.26 to 6.31	<a href="#">SE</a>	No
<a href="#">Tobacco product and alcohol, by cigarette use</a>	6.32 to 6.36	<a href="#">SE</a>	No
<a href="#">Tobacco product, by alcohol use</a>	6.37 to 6.41	<a href="#">SE</a>	No
<a href="#">Illicit drugs or alcohol, by demographic characteristics</a>	6.42	<a href="#">SE</a>	No
<a href="#">Opioid use disorder and opioid misuse</a>	6.43 and 6.44	<a href="#">SE</a>	Yes
<a href="#">Prior year and past year marijuana use status, by selected age categories and gender</a>	6.45	<a href="#">SE</a>	No
<a href="#">Nicotine (cigarette) dependence</a>	6.46 to 6.50	<a href="#">SE</a>	Yes
<a href="#">Substance use disorder, by age at first use and demographic characteristics</a>	6.51 and 6.52	<a href="#">SE</a>	Yes
<a href="#">Source for most recent prescription psychotherapeutic misuse (pain relievers, tranquilizers, stimulants, and sedatives)</a>	6.53 to 6.60	<a href="#">SE</a>	No
<a href="#">Reasons for prescription psychotherapeutic drug misuse</a>	6.61 and 6.62	<a href="#">SE</a>	No
<a href="#">Social context, location, and source of underage drinking</a>	6.63 and 6.64	<a href="#">SE</a>	Yes
<a href="#">Pregnancy</a>	6.65 to 6.69	<a href="#">SE</a>	No
<a href="#">College enrollment</a>	6.70 to 6.83	<a href="#">SE</a>	No
<a href="#">Driving under the influence</a>	6.84 and 6.85	<a href="#">SE</a>	No
<a href="#">Probation and parole/supervised release</a>	6.86 to 6.90	<a href="#">SE</a>	Yes

<sup>1</sup>"Yes" indicates that at least one estimate from the table(s) in Section 6 is also found in Section 7, but the Section 7 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

**Index of Section 7 Tables: Trends (7.1 to 7.40)**

<b>Trend Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding 2-Year Table(s) Available in Sections 1-6<sup>1</sup></b>
<b>Multiyear trends</b>	<b>7.1 to 7.40</b>		
<b>Substance use</b>	<b>7.1 to 7.25</b>		
<a href="#">Lifetime, past year, and past month illicit drug use, by selected age categories</a>	7.1 to 7.15	<a href="#">SE</a>	Yes
<a href="#">Past month tobacco product and alcohol use, by selected age categories and gender</a>	7.16 to 7.20	<a href="#">SE</a>	Yes
<a href="#">Daily marijuana use and average number of days used, by selected age categories</a>	7.21	<a href="#">SE</a>	Yes
<a href="#">Daily cocaine use and average number of days used, by selected age categories</a>	7.22	<a href="#">SE</a>	Yes
<a href="#">Daily cigarette use and smoked one or more packs a day, by selected age categories</a>	7.23	<a href="#">SE</a>	Yes
<a href="#">Daily alcohol use and average number of days used, by selected age categories</a>	7.24	<a href="#">SE</a>	Yes
<a href="#">Lifetime, past year, and past month alcohol use, by underage drinkers and gender</a>	7.25	<a href="#">SE</a>	Yes
<b>Risk and protective factors</b>	<b>7.26 and 7.27</b>		
<a href="#">Disapproval of substance use behavior among persons aged 12 to 17</a>	7.26	<a href="#">SE</a>	Yes
<a href="#">Prevention programs/messages among persons aged 12 to 17</a>	7.27	<a href="#">SE</a>	Yes
<b>Past year initiation of substance use</b>	<b>7.28 to 7.33</b>		
<a href="#">Initiation among selected age categories</a>	7.28 to 7.32	<a href="#">SE</a>	Yes
<a href="#">Mean age at first substance use among past year initiates aged 12 to 49</a>	7.33	<a href="#">SE</a>	Yes
<a href="#">Substance use disorder among selected age categories</a>	7.34 to 7.38	<a href="#">SE</a>	Yes
<a href="#">1971-2017 past month marijuana and past year cocaine use, by selected age categories</a>	7.39 and 7.40	<a href="#">SE</a>	Yes

NOTE: Estimates for 2002-2017 are presented in these tables unless otherwise noted above.

<sup>1</sup>"Yes" indicates that at least one estimate from the table(s) in Section 7 is also found in Sections 1 through 6, but the Section 1 to 6 table(s) may not include all of the estimates.

**Index of Section 8 Tables: Adult Mental Health (8.1 to 8.85)**

Adult Mental Health Table	Table Number	Link to Corresponding Standard Error (SE) Table	Corresponding Multiyear Trend Table(s) Available in Section 10 <sup>1</sup>
<b>Mental illness</b>	<b>8.1 to 8.32</b>		
<a href="#"><u>Any mental illness (AMI), by detailed age categories and demographic, geographic, and socioeconomic characteristics</u></a>	8.1 to 8.3	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Serious mental illness (SMI), by detailed age categories and demographic, geographic, and socioeconomic characteristics</u></a>	8.4 to 8.6	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Levels of mental illness, by demographic, geographic, and socioeconomic characteristics</u></a>	8.7 and 8.8	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Illicit drug use, by level of mental illness</u></a>	8.9	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Prescription psychotherapeutic drug use/misuse, by level of mental illness, major depressive episode (MDE), and suicidal behavior</u></a>	8.10 to 8.19	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Tobacco and alcohol use, by level of mental illness</u></a>	8.20	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Levels of mental illness with substance use disorder (SUD)</u></a>	8.21 to 8.24	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Co-occurring SUD and AMI, by demographic, geographic, and socioeconomic characteristics</u></a>	8.25 and 8.26	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Co-occurring SUD and SMI, by demographic, geographic, and socioeconomic characteristics</u></a>	8.27 and 8.28	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Co-occurring SUD and AMI excluding SMI, by demographic, geographic, and socioeconomic characteristics</u></a>	8.29 and 8.30	<a href="#"><u>SE</u></a>	No
<a href="#"><u>AMI and SMI, by probation or parole/supervised release and demographic characteristics</u></a>	8.31 and 8.32	<a href="#"><u>SE</u></a>	Yes
<b>Mental health services</b>	<b>8.33 to 8.55</b>		
<a href="#"><u>Mental health services, by level of mental illness and demographic, geographic, and socioeconomic characteristics</u></a>	8.33 to 8.37	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Substance use treatment at a specialty facility and/or mental health services, by AMI, SMI, and selected age categories</u></a>	8.38	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Types of mental health services, by level of mental illness</u></a>	8.39 and 8.40	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Location of mental health services, by level of mental illness</u></a>	8.41	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Types and locations of mental health services, by level of mental illness</u></a>	8.42	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Substance use treatment at a specialty facility and/or mental health services, by SUD and level of mental illness</u></a>	8.43	<a href="#"><u>SE</u></a>	No
<a href="#"><u>Types of mental health services, by selected age categories</u></a>	8.44	<a href="#"><u>SE</u></a>	Yes

See notes at end of table.

(continued)

**Index of Section 8 Tables: Adult Mental Health (8.1 to 8.85) (continued)**

<b>Adult Mental Health Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding Multiyear Trend Table(s) Available in Section 10<sup>1</sup></b>
<a href="#">Location of outpatient mental health services, by selected age categories</a>	8.45	<a href="#">SE</a>	Yes
<a href="#">Sources of payment for outpatient mental health services, by selected age categories</a>	8.46	<a href="#">SE</a>	No
<a href="#">Perceived unmet need for mental health services, by receipt of services and demographic, geographic, and socioeconomic characteristics</a>	8.47 to 8.52	<a href="#">SE</a>	Yes
<a href="#">Reasons for not receiving mental health services, by receipt of treatment</a>	8.53 to 8.55	<a href="#">SE</a>	Yes
<b>Major depressive episode (MDE)</b>	<b>8.56 to 8.65</b>		
<a href="#">MDE and receipt of treatment for depression, by detailed age categories and demographic, geographic, socioeconomic, and health characteristics</a>	8.56 to 8.59	<a href="#">SE</a>	Yes
<a href="#">Substance use, by MDE</a>	8.60	<a href="#">SE</a>	No
<a href="#">SUD, by level of mental illness, MDE, and suicidal behavior</a>	8.61	<a href="#">SE</a>	Yes
<a href="#">Type of professional seen</a>	8.62 and 8.63	<a href="#">SE</a>	No
<a href="#">Type of treatment received for depression, by demographic and socioeconomic characteristics</a>	8.64	<a href="#">SE</a>	No
<a href="#">Substance use treatment at a specialty facility and/or mental health services, by SUD and MDE</a>	8.65	<a href="#">SE</a>	No
<b>Suicide</b>	<b>8.66 to 8.83</b>		
<a href="#">Suicidal behavior and treatment, by detailed age categories and demographic, geographic, and socioeconomic characteristics</a>	8.66 to 8.75	<a href="#">SE</a>	Yes
<a href="#">Suicidal behavior, by substance use</a>	8.76	<a href="#">SE</a>	Yes
<a href="#">Serious thoughts of suicide, by probation or parole/supervised release status</a>	8.77 and 8.78	<a href="#">SE</a>	Yes
<a href="#">Suicidal behavior and treatment, level of mental illness, MDE, and mental health services, by college enrollment</a>	8.79 to 8.81	<a href="#">SE</a>	No
<a href="#">Suicidal behavior with mental health and substance use measures</a>	8.82 and 8.83	<a href="#">SE</a>	No
<b>Serious psychological distress (SPD)</b>	<b>8.84 and 8.85</b>		
<a href="#">Past month SPD, by detailed age categories and demographic and socioeconomic characteristics</a>	8.84 and 8.85	<a href="#">SE</a>	Yes

<sup>1</sup>"Yes" indicates that at least one estimate from the table(s) in Section 8 is also found in Section 10, but the Section 10 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

### Index of Section 9 Tables: Youth Mental Health (9.1 to 9.15)

Youth Mental Health Table	Table Number	Link to Corresponding Standard Error (SE) Table	Corresponding Multiyear Trend Table(s) Available in Section 11 <sup>1</sup>
<b>Mental health services</b>	<b>9.1 to 9.5</b>		
<a href="#">Source of services, by demographic, geographic, and socioeconomic characteristics</a>	9.1 to 9.3	<a href="#">SE</a>	Yes
<a href="#">Reasons for receiving most recent services</a>	9.4	<a href="#">SE</a>	Yes
<a href="#">Number of visits or overnight stays</a>	9.5	<a href="#">SE</a>	No
<b>Major depressive episode (MDE)</b>	<b>9.6 to 9.15</b>		
<a href="#">MDE and receipt of treatment for depression, by detailed age categories and demographic, geographic, socioeconomic, and health characteristics</a>	9.6 to 9.8	<a href="#">SE</a>	Yes
<a href="#">Substance use, by MDE</a>	9.9	<a href="#">SE</a>	No
<a href="#">MDE, by substance use disorder (SUD) and demographic characteristics</a>	9.10	<a href="#">SE</a>	No
<a href="#">SUD, by MDE and demographic characteristics</a>	9.11	<a href="#">SE</a>	No
<a href="#">Co-occurring SUD and MDE, by demographic characteristics</a>	9.12	<a href="#">SE</a>	No
<a href="#">Type of professional seen</a>	9.13	<a href="#">SE</a>	No
<a href="#">Type of treatment received for depression, by demographic and socioeconomic characteristics</a>	9.14	<a href="#">SE</a>	Yes
<a href="#">Substance use treatment at a specialty facility and/or mental health services (specialty or nonspecialty), by SUD, MDE, and selected age categories</a>	9.15	<a href="#">SE</a>	No

<sup>1</sup>"Yes" indicates that at least one estimate from the table(s) in Section 9 is also found in Section 11, but the Section 11 table(s) may not include all of the estimates. Note that the matching estimate(s) may be from a total row or column, and there is not necessarily a one-to-one corresponding trend table.

**Index of Section 10 Tables: Adult Mental Health Trends (10.1 to 10.41)**

<b>Adult Mental Health Trend Table</b>	<b>Table Number</b>	<b>Link to Corresponding Standard Error (SE) Table</b>	<b>Corresponding 2-Year Table(s) Available in Section 8<sup>1</sup></b>
<b>Multiyear trends</b>	<b>10.1 to 10.41</b>		
<b>2008-2017 mental illness</b>	<b>10.1 to 10.5</b>		
<a href="#"><u>Any mental illness (AMI), by demographic, geographic, and socioeconomic characteristics</u></a>	10.1 and 10.2	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>Serious mental illness (SMI), by demographic, geographic, and socioeconomic characteristics</u></a>	10.3 and 10.4	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>AMI excluding SMI, by demographic characteristics</u></a>	10.5	<a href="#"><u>SE</u></a>	Yes
<b>Mental health services</b>	<b>10.6 to 10.29</b>		
<a href="#"><u>2002-2017 mental health services, by demographic, geographic, and socioeconomic characteristics</u></a>	10.6 and 10.7	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2008-2017 mental health services with levels of mental illness, by demographic, geographic, and socioeconomic characteristics</u></a>	10.8 to 10.14	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2008-2017 prescription medication as type of mental health service, by AMI, SMI, and selected age categories</u></a>	10.15	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2002-2017 types of mental health services, by selected age categories</u></a>	10.16	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2008-2017 types of mental health services with AMI or SMI, by selected age categories</u></a>	10.17 and 10.18	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2002-2017 location of outpatient mental health services</u></a>	10.19	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2008-2017 location of outpatient mental health services with AMI or SMI</u></a>	10.20 and 10.21	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2002-2017 number of types of mental health services, by selected age categories</u></a>	10.22	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2008-2017 number of types of mental health services with AMI or SMI, by selected age categories</u></a>	10.23 and 10.24	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2002-2017 perceived unmet need for mental health services, by demographic characteristics</u></a>	10.25	<a href="#"><u>SE</u></a>	Yes
<a href="#"><u>2008-2017 perceived unmet need for mental health services, by AMI, SMI, and selected age categories</u></a>	10.26	<a href="#"><u>SE</u></a>	Yes

See notes at end of table.

# Reference Tools

To assist a user in locating a specific table of interest within the 2017 National Survey on Drug Use and Health (NSDUH) detailed tables, reference tools have been developed. Note that the following tools are provided solely for guidance when examining the 2017 detailed tables because there are no hyperlinks within these tools that lead directly to the detailed tables:

- a key to selected variables;
- Key Definitions for the 2017 NSDUH (i.e., the glossary);
- List of Tables: Prevalence Estimates and Sample Sizes - Table Types A, B, and N; and
- List of Tables: Standard Errors and *P* Values - Table Types C, D, and P.

Hyperlinks that lead directly to the tables can be found under the "Tables" bookmark. How to locate a table by selecting the "Tables" bookmark is explained in the "Locating a Table" section of the introduction.

*Using the Key to Selected Variables.* The key to selected variables defines the demographic, geographic, and socioeconomic and health characteristics used throughout the 2017 detailed tables. For example, a user interested in information about the prevalence of illicit drug use by level of education can first review the key to selected variables and see that education is categorized as a demographic characteristic. Next, a user can determine, by looking at the bookmarks for the subject matter sections, that tables pertaining to illicit drug use can be found in Section 1: Illicit Drug Use Tables. By selecting this bookmark, the user will be taken to the table index for the illicit drug use tables. Now the user can scan the links to learn that data on the prevalence of illicit drug use by demographic characteristics are in [Tables 1.29](#) to [1.31](#). Selecting the link to the left of the table numbers will take the user directly to the first table in the specified group.

*Using the Key Definitions for the 2017 NSDUH.* The glossary defines and cross-references commonly used measures and terms in the 2017 detailed tables.<sup>1</sup> For example, a user interested in information about the prevalence of alcohol use measures by demographic characteristics can first review the alcohol use entry in the glossary to see a cross-reference of additional selected alcohol use measures included in the 2017 NSDUH detailed tables. After reviewing the definitions for the various measures, the user can select measures of interest (e.g., "binge use of alcohol"). Next, a user can determine, by looking at the bookmarks for the subject matter sections, that tables pertaining to alcohol use can be found in Section 2: Tobacco Product and Alcohol Use Tables. By selecting this bookmark, the user will be taken to the table index for tobacco product and alcohol use tables. Now the user can scan the links to learn that data on the prevalence of alcohol use by demographics are in [Tables 2.33](#) to [2.37](#). Selecting the link to the

---

<sup>1</sup> The glossary is available online as Section D of the following report: Center for Behavioral Health Statistics and Quality. (2018). *2017 National Survey on Drug Use and Health: Methodological summary and definitions*. Retrieved from <https://www.samhsa.gov/data/>

left of the table numbers will take the user directly to the first table in the specified group where the user can scroll through the tables to locate the table(s) pertaining to the prevalence of "binge use of alcohol" by demographic characteristics ([Table 2.36](#)).

*Using the List of Tables.* The list of tables for both prevalence estimates and sample sizes (table types A, B, and N) and standard errors and  $p$  values (table types C, D, and P) can be used to identify a specific table for one of the subject matter sections. For example, a user interested in information about the prevalence of past month illicit drug use among youths aged 12 or 13 can review the list of tables in Section 1: Illicit Drug Use Tables and identify [Table 1.3B](#) as the table of interest.

# Key to Selected Variables

The following key defines selected demographic, geographic, and socioeconomic and health characteristic variables used throughout the *Results from the 2017 National Survey on Drug Use and Health: Detailed Tables*. This key may be helpful when used in conjunction with the index of tables in identifying tables that contain information for these selected characteristics. However, not all variables listed below are specifically mentioned in the index of tables.<sup>1</sup>

## **Demographic Characteristics**

Standard Age Categories: 12 or Older, 12-17, 18 or Older, 18-25, 26 or Older, 26-49, 50 or Older

Detailed Age Categories: 12 or Older, 12, 13, 12-13, 12-14, 12-17, 14, 14-15, 15, 15-17, 16, 16-17, 17, 18, 18 or Older, 18-20, 18-25, 19, 20, 21, 21-25, 22, 23, 24, 25, 26 or Older, 26-29, 26-34, 26-44, 26-49, 30-34, 35 or Older, 35-39, 35-49, 40-44, 45-49, 50 or Older, 50-54, 55-59, 60-64, 65 or Older

Underage/Legal Drinking Age Categories: 12-20, 21 or Older

Driving Under the Influence Age Categories: 16 or Older, 16-20, 16-25, 21-25, 26 or Older

Gender: Male, Female

Hispanic Origin and Race: Not Hispanic or Latino White, Not Hispanic or Latino Black or African American, Not Hispanic or Latino American Indian or Alaska Native, Not Hispanic or Latino Native Hawaiian or Other Pacific Islander, Not Hispanic or Latino Asian, Not Hispanic or Latino Two or More Races, Hispanic or Latino, Not Hispanic or Latino

Gender/Race/Hispanic Origin: Male White Not Hispanic, Female White Not Hispanic, Male Black Not Hispanic, Female Black Not Hispanic, Male Hispanic, Female Hispanic

Education: Less Than High School, High School Graduate, Some College or Associate's Degree, College Graduate (Note: This variable is defined for adults aged 18 or older.)

---

<sup>1</sup> Definitions for many of the measures and terms used in the detailed tables and reports from the 2017 National Survey on Drug Use and Health (NSDUH) are available online in Section D of the following report: Center for Behavioral Health Statistics and Quality. (2018). *2017 National Survey on Drug Use and Health: Methodological summary and definitions*. Retrieved from <https://www.samhsa.gov/data/>

Current Employment: Full-Time, Part-Time, Unemployed, Other (including students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force) (Note: This variable is defined for adults aged 18 or older.)

Family Income: Less Than \$20,000, \$20,000-\$49,999, \$50,000-\$74,999, \$75,000 or More

### **Geographic Characteristics**

Region: Northeast, Midwest, South, West

County Type:<sup>2</sup> Large Metro counties; Small Metro counties; Nonmetro, including urbanized counties, less urbanized counties, or completely rural counties

### **Socioeconomic and Health Characteristics**

Poverty Level: Three categories for poverty level are defined relative to the poverty threshold: less than 100 percent, 100 to 199 percent, 200 percent or more

Health Insurance: Private Health Insurance, Medicaid/Children's Health Insurance Program (CHIP) Other (including Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or other type), No Coverage

Overall Health: Excellent, Very Good, Good, Fair/Poor

---

<sup>2</sup> The county type measures used in the 2017 detailed tables were defined using the 2013 Rural-Urban Continuum Codes, which differ from the Rural-Urban Continuum Codes that were used to define county type in NSDUHs prior to 2015 due to the use of different census data and changes to the statistical area definition. Therefore, the county type estimates presented in the 2016 and 2017 detailed tables are not comparable with county type estimates presented in prior detailed tables. More details about county type are available online in Section B.4.5 of the following report: Center for Behavioral Health Statistics and Quality. (2018). *2017 National Survey on Drug Use and Health: Methodological summary and definitions*. Retrieved from <https://www.samhsa.gov/data/>

## LIST OF TABLES

### Table

- 1.1A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older: Numbers in Thousands, 2016 and 2017
- 1.1B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older: Percentages, 2016 and 2017
- 1.2A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 to 17: Numbers in Thousands, 2016 and 2017
- 1.2B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 to 17: Percentages, 2016 and 2017
- 1.3A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or 13: Numbers in Thousands, 2016 and 2017
- 1.3B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or 13: Percentages, 2016 and 2017
- 1.4A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 14 or 15: Numbers in Thousands, 2016 and 2017
- 1.4B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 14 or 15: Percentages, 2016 and 2017
- 1.5A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 16 or 17: Numbers in Thousands, 2016 and 2017
- 1.5B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 16 or 17: Percentages, 2016 and 2017
- 1.6A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 18 or Older: Numbers in Thousands, 2016 and 2017
- 1.6B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 18 or Older: Percentages, 2016 and 2017
- 1.7A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 25: Numbers in Thousands, 2016 and 2017
- 1.7B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 25: Percentages, 2016 and 2017
- 1.8A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 20: Numbers in Thousands, 2016 and 2017
- 1.8B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 20: Percentages, 2016 and 2017
- 1.9A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 21 to 25: Numbers in Thousands, 2016 and 2017
- 1.9B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 21 to 25: Percentages, 2016 and 2017
- 1.10A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 26 or Older: Numbers in Thousands, 2016 and 2017
- 1.10B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 26 or Older: Percentages, 2016 and 2017
- 1.11A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 26 to 34: Numbers in Thousands, 2016 and 2017
- 1.11B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 26 to 34: Percentages, 2016 and 2017
- 1.12A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 35 or Older: Numbers in Thousands, 2016 and 2017
- 1.12B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 35 or Older: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 1.13A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Males Aged 12 or Older: Numbers in Thousands, 2016 and 2017
- 1.13B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Males Aged 12 or Older: Percentages, 2016 and 2017
- 1.14A Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Females Aged 12 or Older: Numbers in Thousands, 2016 and 2017
- 1.14B Types of Illicit Drug Use in Lifetime, Past Year, and Past Month among Females Aged 12 or Older: Percentages, 2016 and 2017
- 1.15A Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.15B Illicit Drug Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.16A Marijuana Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.16B Marijuana Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.17A Cocaine Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.17B Cocaine Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.18A Crack Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.18B Crack Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.19A Hallucinogen Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.19B Hallucinogen Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.20A Inhalant Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.20B Inhalant Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.21A Methamphetamine Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.21B Methamphetamine Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.22A Any Use of Prescription Psychotherapeutics in Past Year and Misuse of Prescription Psychotherapeutics in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.22B Any Use of Prescription Psychotherapeutics in Past Year and Misuse of Prescription Psychotherapeutics in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.23A Any Use of Pain Relievers in Past Year and Misuse of Pain Relievers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.23B Any Use of Pain Relievers in Past Year and Misuse of Pain Relievers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.24A Any Use of Tranquilizers in Past Year and Misuse of Tranquilizers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.24B Any Use of Tranquilizers in Past Year and Misuse of Tranquilizers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 1.25A Any Use of Stimulants in Past Year and Misuse of Stimulants in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.25B Any Use of Stimulants in Past Year and Misuse of Stimulants in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.26A Any Use of Sedatives in Past Year and Misuse of Sedatives in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.26B Any Use of Sedatives in Past Year and Misuse of Sedatives in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.27A Misuse of Opioids in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 1.27B Misuse of Opioids in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 1.28A Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older and Misuse of Prescription Psychotherapeutics in Past Year among Past Year Any Users Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 1.28B Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older and Misuse of Prescription Psychotherapeutics in Past Year among Past Year Any Users Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 1.29A Illicit Drug Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.29B Illicit Drug Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.30A Illicit Drug Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.30B Illicit Drug Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.31A Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.31B Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.32A Marijuana Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.32B Marijuana Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.33A Marijuana Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.33B Marijuana Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.34A Marijuana Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.34B Marijuana Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.35A Cocaine Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.35B Cocaine Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.36A Cocaine Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.36B Cocaine Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 1.37A Cocaine Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.37B Cocaine Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.38A Crack Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.38B Crack Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.39A Crack Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.39B Crack Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.40A Crack Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.40B Crack Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.41A Hallucinogen Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.41B Hallucinogen Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.42A Hallucinogen Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.42B Hallucinogen Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.43A Hallucinogen Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.43B Hallucinogen Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.44A Inhalant Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.44B Inhalant Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.45A Inhalant Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.45B Inhalant Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.46A Inhalant Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.46B Inhalant Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.47A Methamphetamine Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.47B Methamphetamine Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.48A Methamphetamine Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.48B Methamphetamine Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 1.49A Methamphetamine Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.49B Methamphetamine Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.50A Any Use of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.50B Any Use of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.51A Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.51B Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.52A Misuse of Prescription Psychotherapeutics in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.52B Misuse of Prescription Psychotherapeutics in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.53A Any Use of Pain Relievers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.53B Any Use of Pain Relievers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.54A Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.54B Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.55A Misuse of Pain Relievers in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.55B Misuse of Pain Relievers in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.56A Any Use of Tranquilizers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.56B Any Use of Tranquilizers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.57A Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.57B Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.58A Misuse of Tranquilizers in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.58B Misuse of Tranquilizers in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.59A Any Use of Stimulants in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.59B Any Use of Stimulants in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 1.60A Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 1.60B Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017

2.17B	Smokeless Tobacco Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
2.18A	Cigar Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
2.18B	Cigar Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
2.19A	Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
2.19B	Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
2.20A	Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
2.20B	Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
2.21A	Tobacco Product Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
2.21B	Tobacco Product Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 2.22A Tobacco Product Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.22B Tobacco Product Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.23A Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.23B Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.24A Cigarette Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.24B Cigarette Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.25A Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.25B Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.26A Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.26B Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.27A Smokeless Tobacco Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.27B Smokeless Tobacco Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.28A Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.28B Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.29A Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.29B Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.30A Cigar Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.30B Cigar Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.31A Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.31B Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.32A Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.32B Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 2.33A Alcohol Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.33B Alcohol Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

2.34A	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
2.34B	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
2.35A	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
2.35B	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
2.36A	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
2.36B	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
2.37A	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
2.37B	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
2.38A	Tobacco Product Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.38B	Tobacco Product Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.39A	Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.39B	Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.40A	Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.40B	Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.41A	Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.41B	Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.42A	Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.42B	Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.43A	Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.43B	Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.44A	Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.44B	Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
2.45A	Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
2.45B	Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 2.46A Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.46B Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 2.47A Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.47B Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 2.48A Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.48B Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 2.49A Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.49B Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 2.50A Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.50B Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Demographic Characteristics: Percentages, 2016 and 2017
- 2.51A Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.51B Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
- 2.52A Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.52B Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 2.53A Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
- 2.53B Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 3.1A Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 3.1B Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 3.2A Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Past Year Initiates of Specific Substances Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 3.2B Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Past Year Initiates of Specific Substances Aged 12 or Older, by Age Group: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 3.3A Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Specific Substance Use Initiation Status: Numbers in Thousands, 2016 and 2017
- 3.3B Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Specific Substance Use Initiation Status: Percentages, 2016 and 2017
- 3.4A Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.4B Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.5A Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 20, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.5B Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 20, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.6A Perceived Great Risk of Harm Associated with Marijuana and Cocaine Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.6B Perceived Great Risk of Harm Associated with Marijuana and Cocaine Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.7A Perceived Great Risk of Harm Associated with Heroin and LSD Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.7B Perceived Great Risk of Harm Associated with Heroin and LSD Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.8A Perceived That Obtaining Specific Illicit Drugs Would Be Fairly or Very Easy among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.8B Perceived That Obtaining Specific Illicit Drugs Would Be Fairly or Very Easy among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.9A Youths Felt That Parents Would Strongly Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.9B Youths Felt That Parents Would Strongly Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.10A Youths Felt That Close Friends Would Strongly Disapprove or Somewhat Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.10B Youths Felt That Close Friends Would Strongly Disapprove or Somewhat Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.11A Youths Strongly Disapproved or Somewhat Disapproved of Peers' Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.11B Youths Strongly Disapproved or Somewhat Disapproved of Peers' Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.12A Participated in a Prevention Program or Group in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.12B Participated in a Prevention Program or Group in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.13A Participated in a Substance Use Program or Exposed to Substance Use Prevention Message in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.13B Participated in a Substance Use Program or Exposed to Substance Use Prevention Message in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 3.14A Participated in a Physical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.14B Participated in a Physical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.15A Participated in a Nonphysical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.15B Participated in a Nonphysical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.16A Selected Risk and Protective Factors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.16B Selected Risk and Protective Factors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.17A Youths Agreed or Strongly Agreed with Statements about Religious Beliefs among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.17B Youths Agreed or Strongly Agreed with Statements about Religious Beliefs among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.18A Parents Always or Sometimes Took Part in Specific Behaviors in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.18B Parents Always or Sometimes Took Part in Specific Behaviors in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.19A Measures of Student Characteristics in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.19B Measures of Student Characteristics in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.20A Adults Always or Sometimes Took Part in Specific School-Related Behaviors in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.20B Adults Always or Sometimes Took Part in Specific School-Related Behaviors in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.21A Youths Perceived That All or Most Students in Grade Level Use Specific Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Numbers in Thousands, 2016 and 2017
- 3.21B Youths Perceived That All or Most Students in Grade Level Use Specific Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Percentages, 2016 and 2017
- 3.22A Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Risk of Harm Associated with Substance Use Behaviors: Numbers in Thousands, 2017
- 3.22B Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Risk of Harm Associated with Substance Use Behaviors: Percentages, 2017
- 3.23A Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Availability of Selected Illicit Drugs: Numbers in Thousands, 2017
- 3.23B Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Availability of Selected Illicit Drugs: Percentages, 2017
- 3.24A Perceived Availability of Selected Illicit Drugs among Persons Aged 12 or Older, by Past Month Substance Use Status: Numbers in Thousands, 2017
- 3.24B Perceived Availability of Selected Illicit Drugs among Persons Aged 12 or Older, by Past Month Substance Use Status: Percentages, 2017

## LIST OF TABLES (Continued)

### Table

- 3.25A Perceived Availability of Selected Illicit Drugs among Persons Aged 12 to 17, by Past Month Substance Use Status: Numbers in Thousands, 2017
- 3.25B Perceived Availability of Selected Illicit Drugs among Persons Aged 12 to 17, by Past Month Substance Use Status: Percentages, 2017
- 3.26A Perceived Availability of Selected Illicit Drugs among Persons Aged 18 or Older, by Past Month Substance Use Status: Numbers in Thousands, 2017
- 3.26B Perceived Availability of Selected Illicit Drugs among Persons Aged 18 or Older, by Past Month Substance Use Status: Percentages, 2017
- 3.27A Perceived Availability of Selected Illicit Drugs among Persons Aged 18 to 25, by Past Month Substance Use Status: Numbers in Thousands, 2017
- 3.27B Perceived Availability of Selected Illicit Drugs among Persons Aged 18 to 25, by Past Month Substance Use Status: Percentages, 2017
- 3.28A Perceived Availability of Selected Illicit Drugs among Persons Aged 26 or Older, by Past Month Substance Use Status: Numbers in Thousands, 2017
- 3.28B Perceived Availability of Selected Illicit Drugs among Persons Aged 26 or Older, by Past Month Substance Use Status: Percentages, 2017
- 3.29A Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Parents' Feelings about Substance Use Behaviors: Numbers in Thousands, 2017
- 3.29B Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Parents' Feelings about Substance Use Behaviors: Percentages, 2017
- 3.30A Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Close Friends' Feelings and Youth's Feelings about Peers' Substance Use Behaviors: Numbers in Thousands, 2017
- 3.30B Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Close Friends' Feelings and Youth's Feelings about Peers' Substance Use Behaviors: Percentages, 2017
- 3.31A Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Youth's Participation in Prevention or Substance Use Programs and Exposure to Substance Use Prevention Messages and Youth's Delinquency in Past Year: Numbers in Thousands, 2017
- 3.31B Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Youth's Participation in Prevention or Substance Use Programs and Exposure to Substance Use Prevention Messages and Youth's Delinquency in Past Year: Percentages, 2017
- 3.32A Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Risk and Protective Factors, Religious Beliefs, and Past Year Parental Involvement: Numbers in Thousands, 2017
- 3.32B Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Risk and Protective Factors, Religious Beliefs, and Past Year Parental Involvement: Percentages, 2017
- 3.33A Past Month Use of Selected Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Measures of Scholastic Environment: Numbers in Thousands, 2017
- 3.33B Past Month Use of Selected Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Measures of Scholastic Environment: Percentages, 2017
- 4.1B Past Year Initiation of Marijuana Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Marijuana Use, and Past Year Marijuana Users Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
- 4.2B Past Year Initiation of Cigarette Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Cigarette Use, and Past Year Cigarette Users Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
- 4.3B Past Year Initiation of Alcohol Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Alcohol Use, and Past Year Alcohol Users Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 4.4B Past Year Initiation of Substance Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 12 or Older: Numbers in Thousands and Percentages, 2016 and 2017
- 4.5B Past Year Initiation of Substance Use among Persons Aged 12 to 17, Persons Aged 12 to 17 At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 12 to 17: Numbers in Thousands and Percentages, 2016 and 2017
- 4.6B Past Year Initiation of Substance Use among Persons Aged 18 or Older, Persons Aged 18 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 18 or Older: Numbers in Thousands and Percentages, 2016 and 2017
- 4.7B Past Year Initiation of Substance Use among Persons Aged 18 to 25, Persons Aged 18 to 25 At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 18 to 25: Numbers in Thousands and Percentages, 2016 and 2017
- 4.8B Past Year Initiation of Substance Use among Persons Aged 26 or Older, Persons Aged 26 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 26 or Older: Numbers in Thousands and Percentages, 2016 and 2017
- 4.9A Past Year Initiation of Substance Use among Persons Aged 12 or Older, by Gender: Numbers in Thousands, 2016 and 2017
- 4.10A Past Year Initiation of Substance Use among Persons Aged 12 or Older Who Initiated Use Prior to Age 18, by Gender: Numbers in Thousands, 2016 and 2017
- 4.11A Past Year Initiation of Substance Use among Persons Aged 12 or Older Who Initiated Use Prior to Age 21, by Gender: Numbers in Thousands, 2016 and 2017
- 4.12A Past Year Initiation of Substance Use among Persons Aged 12 to 49, by Gender: Numbers in Thousands, 2016 and 2017
- 4.13B Mean Age at First Substance Use among Past Year Initiates Aged 12 to 49, by Gender: 2016 and 2017
- 5.1A Substance Use Disorder Status in Past Year among Persons Aged 12 or Older: Numbers in Thousands, 2016 and 2017
- 5.1B Substance Use Disorder Status in Past Year among Persons Aged 12 or Older: Percentages, 2016 and 2017
- 5.2A Substance Use Disorder for Specific Substances in Past Year among Persons Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.2B Substance Use Disorder for Specific Substances in Past Year among Persons Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 5.3A Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
- 5.3B Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 5.4A Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 5.4B Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
- 5.5A Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 5.5B Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

5.6A	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.6B	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.7A	Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
5.7B	Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
5.8A	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
5.8B	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
5.9A	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
5.9B	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
5.10A	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
5.10B	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
5.11A	Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.11B	Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.12A	Received Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.12B	Received Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.13A	Received Both Illicit Drug and Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.13B	Received Both Illicit Drug and Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.14A	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.14B	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.15A	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
5.15B	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
5.16A	Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.16B	Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use in Past Year, by Age Group: Percentages, 2016 and 2017
5.17A	Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.17B	Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

5.18A	Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.18B	Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Percentages, 2016 and 2017
5.19A	Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.19B	Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Percentages, 2016 and 2017
5.20A	Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.20B	Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Percentages, 2016 and 2017
5.21A	Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands, 2016 and 2017
5.21B	Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
5.22A	Received Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.22B	Received Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.23A	Received Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.23B	Received Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.24A	Received Both Illicit Drug and Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.24B	Received Both Illicit Drug and Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.25A	Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.25B	Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
5.26A	Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
5.26B	Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
5.27A	Type of Substance Use Treatment Received at a Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.27B	Type of Substance Use Treatment Received at a Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
5.28A	Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
5.28B	Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.29A Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.29B Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.30A Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.30B Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.31A Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.31B Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.32A Source of Payment for Last or Current Illicit Drug Treatment among Persons Aged 12 or Older Who Received Their Last or Current Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.32B Source of Payment for Last or Current Illicit Drug Treatment among Persons Aged 12 or Older Who Received Their Last or Current Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.33A Source of Payment for Last or Current Alcohol Treatment among Persons Aged 12 or Older Who Received Their Last or Current Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.33B Source of Payment for Last or Current Alcohol Treatment among Persons Aged 12 or Older Who Received Their Last or Current Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.34A Source of Payment for Last or Current Substance Use Treatment among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.34B Source of Payment for Last or Current Substance Use Treatment among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.35A Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder of Specific Substances: Numbers in Thousands, 2016 and 2017
- 5.35B Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder of Specific Substances: Percentages, 2016 and 2017
- 5.36A Type of Substance Use Treatment Received at Any Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.36B Type of Substance Use Treatment Received at Any Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 5.37A Receipt of Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility and Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.37B Receipt of Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility and Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older, by Age Group: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.38A Received Illicit Drug Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.38B Received Illicit Drug Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.39A Received Alcohol Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.39B Received Alcohol Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.40A Received Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 5.40B Received Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Percentages, 2016 and 2017
- 5.41A Type of Substance Use Treatment Received at Any Treatment Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder Status: Numbers in Thousands, 2016 and 2017
- 5.41B Type of Substance Use Treatment Received at Any Treatment Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder Status: Percentages, 2016 and 2017
- 5.42A Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands and Percentages, 2016 and 2017
- 5.42B Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
- 5.43A Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
- 5.43B Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
- 5.44A Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
- 5.44B Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
- 5.45A Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
- 5.45B Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017
- 5.46A Perceived Need for Illicit Drug Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Illicit Drug Treatment, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 5.46B Perceived Need for Illicit Drug Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Illicit Drug Treatment, by Demographic Characteristics: Percentages, 2016 and 2017
- 5.47A Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
- 5.47B Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

5.48A	Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
5.48B	Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
5.49A	Perceived Need for Alcohol Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Alcohol Treatment, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.49B	Perceived Need for Alcohol Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Alcohol Treatment, by Demographic Characteristics: Percentages, 2016 and 2017
5.50A	Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
5.50B	Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
5.51A	Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands and Percentages, 2016 and 2017
5.51B	Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
5.52A	Perceived Need for Substance Use Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
5.52B	Perceived Need for Substance Use Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment, by Demographic Characteristics: Percentages, 2016 and 2017
5.53A	Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Numbers in Thousands, 2017
5.53B	Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Percentages, 2017
5.54A	Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 18 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Numbers in Thousands, 2017
5.54B	Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 18 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Percentages, 2017
6.1A	Number of Days Used Marijuana in Past Year among Past Year Users and Number of Days Used Marijuana in Past Month among Past Month Users Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
6.1B	Number of Days Used Marijuana in Past Year among Past Year Users and Number of Days Used Marijuana in Past Month among Past Month Users Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
6.2A	Number of Days Used Cocaine in Past Year among Past Year Users and Number of Days Used Cocaine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
6.2B	Number of Days Used Cocaine in Past Year among Past Year Users and Number of Days Used Cocaine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 6.3A Number of Days Used Hallucinogens in Past Year among Past Year Users and Number of Days Used Hallucinogens in Past Month among Past Month Users Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
- 6.3B Number of Days Used Hallucinogens in Past Year among Past Year Users and Number of Days Used Hallucinogens in Past Month among Past Month Users Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
- 6.4A Number of Days Used Inhalants in Past Year among Past Year Users and Number of Days Used Inhalants in Past Month among Past Month Users Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
- 6.4B Number of Days Used Inhalants in Past Year among Past Year Users and Number of Days Used Inhalants in Past Month among Past Month Users Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
- 6.5A Number of Days Used Methamphetamine in Past Year among Past Year Users and Number of Days Used Methamphetamine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
- 6.5B Number of Days Used Methamphetamine in Past Year among Past Year Users and Number of Days Used Methamphetamine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
- 6.6A Number of Days Misused Prescription Psychotherapeutics in Past Month among Past Month Misusers Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
- 6.6B Number of Days Misused Prescription Psychotherapeutics in Past Month among Past Month Misusers Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
- 6.7A Number of Days Used Cigarettes in Past Month among Past Month Users and Number of Cigarettes Smoked Per Day among Daily Smokers Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
- 6.7B Number of Days Used Cigarettes in Past Month among Past Month Users and Number of Cigarettes Smoked Per Day among Daily Smokers Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
- 6.8A Number of Days Used Alcohol in Past Year among Past Year Users and Number of Days Used Alcohol in Past Month among Past Month Users Aged 12 or Older, by Age Group: Numbers in Thousands and Averages, 2016 and 2017
- 6.8B Number of Days Used Alcohol in Past Year among Past Year Users and Number of Days Used Alcohol in Past Month among Past Month Users Aged 12 or Older, by Age Group: Percentages and Averages, 2016 and 2017
- 6.9A Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Numbers in Thousands, 2016 and 2017
- 6.9B Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Percentages, 2016 and 2017
- 6.10A Any Use and Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Numbers in Thousands, 2016 and 2017
- 6.10B Any Use and Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Percentages, 2016 and 2017
- 6.11A Any Use and Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Numbers in Thousands, 2016 and 2017
- 6.11B Any Use and Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Percentages, 2016 and 2017
- 6.12A Any Use and Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Numbers in Thousands, 2016 and 2017
- 6.12B Any Use and Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 6.13A Any Use and Misuse of Sedatives in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Numbers in Thousands, 2016 and 2017
- 6.13B Any Use and Misuse of Sedatives in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Percentages, 2016 and 2017
- 6.14A Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.14B Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.15A Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.15B Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.16A Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.16B Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.17A Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.17B Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.18A Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.18B Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.19A Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.19B Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
- 6.20A Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.20B Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
- 6.21A Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.21B Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
- 6.22A Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.22B Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
- 6.23A Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.23B Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
- 6.24A Types of Illicit Drug Use in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Numbers in Thousands, 2016 and 2017
- 6.24B Types of Illicit Drug Use in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 6.25A Drugs Used with Alcohol or within 2 Hours of Alcohol Use on Most Recent Use of Alcohol in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Numbers in Thousands, 2016 and 2017
- 6.25B Drugs Used with Alcohol or within 2 Hours of Alcohol Use on Most Recent Use of Alcohol in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Percentages, 2016 and 2017
- 6.26A Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette and Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.26B Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette and Alcohol Use: Percentages, 2016 and 2017
- 6.27A Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette and Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.27B Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette and Alcohol Use: Percentages, 2016 and 2017
- 6.28A Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette and Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.28B Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette and Alcohol Use: Percentages, 2016 and 2017
- 6.29A Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette and Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.29B Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette and Alcohol Use: Percentages, 2016 and 2017
- 6.30A Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette and Alcohol Use: Numbers in Thousands, 2016 and 2017
- 6.30B Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette and Alcohol Use: Percentages, 2016 and 2017
- 6.31A Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use, Levels of Past Month Alcohol Use, and Age Group: Numbers in Thousands, 2016 and 2017
- 6.31B Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use, Levels of Past Month Alcohol Use, and Age Group: Percentages, 2016 and 2017
- 6.32A Tobacco Product and Alcohol Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.32B Tobacco Product and Alcohol Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.33A Tobacco Product and Alcohol Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.33B Tobacco Product and Alcohol Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: Percentages, 2016 and 2017
- 6.34A Tobacco Product and Alcohol Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: Numbers in Thousands, 2016 and 2017
- 6.34B Tobacco Product and Alcohol Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: Percentages, 2016 and 2017

### Table

6.37A	Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
6.37B	Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
6.38A	Tobacco Product Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
6.38B	Tobacco Product Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
6.39A	Tobacco Product Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
6.39B	Tobacco Product Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
6.40A	Tobacco Product Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
6.40B	Tobacco Product Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
6.41A	Tobacco Product Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: Numbers in Thousands, 2016 and 2017
6.41B	Tobacco Product Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: Percentages, 2016 and 2017
6.42A	Illicit Drug or Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
6.42B	Illicit Drug or Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
6.43A	Opioid Use Disorder Status in Past Year among Persons Aged 12 or Older, by Age Group and Past Year Opioid Misuse Characteristics: Numbers in Thousands, 2016 and 2017
6.43B	Opioid Use Disorder Status in Past Year among Persons Aged 12 or Older, by Age Group and Past Year Opioid Misuse Characteristics: Percentages, 2016 and 2017
6.44A	Opioid Misuse Characteristics in Past Year among Past Year Opioid Misusers Aged 12 or Older and Opioid Disorder Characteristics in Past Year among Persons Aged 12 or Older with Past Year Opioid Use Disorder, by Age Group: Numbers in Thousands, 2016 and 2017
6.44B	Opioid Misuse Characteristics in Past Year among Past Year Opioid Misusers Aged 12 or Older and Opioid Disorder Characteristics in Past Year among Persons Aged 12 or Older with Past Year Opioid Use Disorder, by Age Group: Percentages, 2016 and 2017
6.45A	Marijuana Use in Prior Year and Past Year Marijuana Use Status among Persons Aged 12 or Older, by Demographic Characteristics: Numbers in Thousands, 2016 and 2017
6.45B	Marijuana Use in Prior Year and Past Year Marijuana Use Status among Persons Aged 12 or Older, by Demographic Characteristics: Percentages, 2016 and 2017
6.46A	Cigarette Use and Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Detailed Age Category: Numbers in Thousands and Percentages, 2016 and 2017
6.46B	Cigarette Use and Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Detailed Age Category: Percentages, 2016 and 2017
6.47A	Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
6.47B	Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Percentages, 2016 and 2017
6.48A	Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2016 and 2017
6.48B	Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 6.49A Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 6.49B Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes and Demographic Characteristics: Percentages, 2016 and 2017
- 6.50A Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes Daily and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 6.50B Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes Daily and Demographic Characteristics: Percentages, 2016 and 2017
- 6.51A Illicit Drug Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Marijuana and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 6.51B Illicit Drug Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Marijuana and Demographic Characteristics: Percentages, 2016 and 2017
- 6.52A Alcohol Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Alcohol and Demographic Characteristics: Numbers in Thousands, 2016 and 2017
- 6.52B Alcohol Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Alcohol and Demographic Characteristics: Percentages, 2016 and 2017
- 6.53A Source Where Pain Relievers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.53B Source Where Pain Relievers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 6.54A Source Where Friend or Relative Obtained Pain Relievers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Pain Relievers from a Friend or Relative for Free in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.54B Source Where Friend or Relative Obtained Pain Relievers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Pain Relievers from a Friend or Relative for Free in Past Year, by Age Group: Percentages, 2016 and 2017
- 6.55A Source Where Tranquilizers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.55B Source Where Tranquilizers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 6.56A Source Where Friend or Relative Obtained Tranquilizers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Tranquilizers from a Friend or Relative for Free in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.56B Source Where Friend or Relative Obtained Tranquilizers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Tranquilizers from a Friend or Relative for Free in Past Year, by Age Group: Percentages, 2016 and 2017
- 6.57A Source Where Stimulants Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.57B Source Where Stimulants Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Percentages, 2016 and 2017
- 6.58A Source Where Friend or Relative Obtained Stimulants among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Stimulants from a Friend or Relative for Free in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.58B Source Where Friend or Relative Obtained Stimulants among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Stimulants from a Friend or Relative for Free in Past Year, by Age Group: Percentages, 2016 and 2017
- 6.59A Source Where Sedatives Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.59B Source Where Sedatives Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 6.60A Source Where Friend or Relative Obtained Sedatives among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Sedatives from a Friend or Relative for Free in Past Year, by Age Group: Numbers in Thousands, 2016 and 2017
- 6.60B Source Where Friend or Relative Obtained Sedatives among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Sedatives from a Friend or Relative for Free in Past Year, by Age Group: Percentages, 2016 and 2017
- 6.61A Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 12 or Older of Each Type of Prescription Psychotherapeutic: Numbers in Thousands, 2016 and 2017
- 6.61B Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 12 or Older of Each Type of Prescription Psychotherapeutic: Percentages, 2016 and 2017
- 6.62A Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 18 or Older of Each Type of Prescription Psychotherapeutic: Numbers in Thousands, 2016 and 2017
- 6.62B Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 18 or Older of Each Type of Prescription Psychotherapeutic: Percentages, 2016 and 2017
- 6.63A Social Context and Location of Most Recent Alcohol Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Numbers in Thousands, 2016 and 2017
- 6.63B Social Context and Location of Most Recent Alcohol Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Percentages, 2016 and 2017
- 6.64A Source Where Alcohol Was Obtained for Most Recent Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Numbers in Thousands, 2016 and 2017
- 6.64B Source Where Alcohol Was Obtained for Most Recent Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Percentages, 2016 and 2017
- 6.65A Types of Illicit Drug Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Numbers in Thousands, 2016 and 2017
- 6.65B Types of Illicit Drug Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Percentages, 2016 and 2017
- 6.66A Illicit Drug Use, Marijuana Use, and Opioid Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Numbers in Thousands, 2016 and 2017
- 6.66B Illicit Drug Use, Marijuana Use, and Opioid Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Percentages, 2016 and 2017
- 6.67A Tobacco Use, Cigarette Use, Daily Cigarette Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Numbers in Thousands, 2016 and 2017
- 6.67B Tobacco Use, Cigarette Use, Daily Cigarette Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Percentages, 2016 and 2017
- 6.68A Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Numbers in Thousands, 2016 and 2017
- 6.68B Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Percentages, 2016 and 2017
- 6.69A Illicit Drug, Tobacco Product, and Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Numbers in Thousands, 2016 and 2017
- 6.69B Illicit Drug, Tobacco Product, and Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

10.13A	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2008-2017
10.13B	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Geographic and Socioeconomic Characteristics: Percentages, 2008-2017
10.14A	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Excluding Serious Mental Illness, by Demographic Characteristics: Numbers in Thousands, 2008-2017
10.14B	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Excluding Serious Mental Illness, by Demographic Characteristics: Percentages, 2008-2017
10.15A	Received Only Prescription Medication as a Type of Mental Health Service in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Past Year Level of Mental Illness and Age Group: Numbers in Thousands, 2008-2017
10.15B	Received Only Prescription Medication as a Type of Mental Health Service in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Past Year Level of Mental Illness and Age Group: Percentages, 2008-2017
10.16A	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older, by Age Group: Numbers in Thousands, 2002-2017
10.16B	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older, by Age Group: Percentages, 2002-2017
10.17A	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Age Group: Numbers in Thousands, 2008-2017
10.17B	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Age Group: Percentages, 2008-2017
10.18A	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Age Group: Numbers in Thousands, 2008-2017
10.18B	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Age Group: Percentages, 2008-2017
10.19A	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older Who Received Outpatient Mental Health Services in Past Year: Numbers in Thousands, 2002-2017
10.19B	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older Who Received Outpatient Mental Health Services in Past Year: Percentages, 2002-2017
10.20A	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Outpatient Mental Health Services in Past Year: Numbers in Thousands, 2008-2017
10.20B	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Outpatient Mental Health Services in Past Year: Percentages, 2008-2017

## LIST OF TABLES (Continued)

### Table

10.21A	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Outpatient Mental Health Services in Past Year: Numbers in Thousands, 2008-2017
10.21B	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Outpatient Mental Health Services in Past Year: Percentages, 2008-2017
10.22A	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Age Group: Numbers in Thousands, 2002-2017
10.22B	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Age Group: Percentages, 2002-2017
10.23A	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Numbers in Thousands, 2008-2017
10.23B	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Percentages, 2008-2017
10.24A	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Numbers in Thousands, 2008-2017
10.24B	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Percentages, 2008-2017
10.25A	Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2002-2017
10.25B	Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2002-2017
10.26A	Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness and Age Group: Numbers in Thousands, 2008-2017
10.26B	Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness and Age Group: Percentages, 2008-2017
10.27A	Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Numbers in Thousands, 2002-2017
10.27B	Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Percentages, 2002-2017
10.28A	Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Any Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Numbers in Thousands, 2008-2017
10.28B	Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Any Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Percentages, 2008-2017
10.29A	Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Serious Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Numbers in Thousands, 2008-2017
10.29B	Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Serious Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Percentages, 2008-2017
10.30A	Major Depressive Episode in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2005-2017
10.30B	Major Depressive Episode in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2005-2017

## LIST OF TABLES (Continued)

### Table

10.31A	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2009-2017
10.31B	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2009-2017
10.32A	Received Treatment for Depression in Past Year among Persons Aged 18 or Older with a Past Year Major Depressive Episode, by Demographic Characteristics: Numbers in Thousands, 2009-2017
10.32B	Received Treatment for Depression in Past Year among Persons Aged 18 or Older with a Past Year Major Depressive Episode, by Demographic Characteristics: Percentages, 2009-2017
10.33A	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Numbers in Thousands, 2008-2017
10.33B	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Percentages, 2008-2017
10.34A	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2008-2017
10.34B	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2008-2017
10.35A	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Numbers in Thousands, 2008-2017
10.35B	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Percentages, 2008-2017
10.36A	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Numbers in Thousands, 2008-2017
10.36B	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Percentages, 2008-2017
10.37A	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2008-2017
10.37B	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2008-2017
10.38A	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Numbers in Thousands, 2008-2017
10.38B	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Percentages, 2008-2017
10.39A	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2008-2017
10.39B	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2008-2017
10.40A	Serious Psychological Distress in Past Month among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2008-2017
10.40B	Serious Psychological Distress in Past Month among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2008-2017
10.41A	Serious Psychological Distress in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Numbers in Thousands, 2005-2017
10.41B	Serious Psychological Distress in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Percentages, 2005-2017
11.1A	Sources of Mental Health Services in Past Year among Persons Aged 12 to 17: Numbers in Thousands, 2002-2017
11.1B	Sources of Mental Health Services in Past Year among Persons Aged 12 to 17: Percentages, 2002-2017

## LIST OF TABLES (Continued)

### Table

11.2A	Had at Least One Major Depressive Episode in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Numbers in Thousands, 2004-2017
11.2B	Had at Least One Major Depressive Episode in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Percentages, 2004-2017
11.3A	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode, by Demographic Characteristics: Numbers in Thousands, 2004-2017
11.3B	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode, by Demographic Characteristics: Percentages, 2004-2017
11.4A	Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode: Numbers in Thousands, 2004-2017
11.4B	Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode: Percentages, 2004-2017
11.5A	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Numbers in Thousands, 2006-2017
11.5B	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Percentages, 2006-2017
11.6A	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode with Severe Impairment, by Demographic Characteristics: Numbers in Thousands, 2006-2017
11.6B	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode with Severe Impairment, by Demographic Characteristics: Percentages, 2006-2017
12.1A	Numbers (in Thousands) of Persons Aged 12 or Older, by Gender and Detailed Age Category: 2016 and 2017
12.1N	Survey Sample Size for Respondents Aged 12 or Older, by Gender and Detailed Age Category: 2016 and 2017
12.2A	Numbers (in Thousands) of Persons Aged 12 or Older, by Age Group and Demographic Characteristics: 2016 and 2017
12.2N	Survey Sample Size for Respondents Aged 12 or Older, by Age Group and Demographic Characteristics: 2016 and 2017
12.3A	Numbers (in Thousands) of Persons Aged 12 or Older, by Underage and Legal Drinking Age Groups and Demographic Characteristics: 2016 and 2017
12.3N	Survey Sample Size for Respondents Aged 12 or Older, by Underage and Legal Drinking Age Groups and Demographic Characteristics: 2016 and 2017
12.4A	Numbers (in Thousands) of Persons Aged 12 or Older, by Age Group and Geographic, Socioeconomic, and Health Characteristics: 2016 and 2017
12.4N	Survey Sample Size for Respondents Aged 12 or Older, by Age Group and Geographic, Socioeconomic, and Health Characteristics: 2016 and 2017
12.5A	Numbers (in Thousands) of Persons Aged 12 or Older, by Underage and Legal Drinking Age Groups and Geographic and Socioeconomic Characteristics: 2016 and 2017
12.5N	Survey Sample Size for Respondents Aged 12 or Older, by Underage and Legal Drinking Age Groups and Geographic and Socioeconomic Characteristics: 2016 and 2017
12.6A	Numbers (in Thousands) of Persons Aged 12 or Older, by Youth and Adult Demographic Characteristics: 2002-2017
12.6N	Survey Sample Size for Respondents Aged 12 or Older, by Youth and Adult Demographic Characteristics: 2002-2017
12.7A	Numbers (in Thousands) of Females Aged 15 to 44, by Pregnancy Status and Demographic, Socioeconomic, and Pregnancy Characteristics: 2016 and 2017
12.7N	Survey Sample Size for Female Respondents Aged 15 to 44 by Pregnancy Status and Demographic, Socioeconomic, and Pregnancy Characteristics: 2016 and 2017

- 1.22D Any Use of Prescription Psychotherapeutics in Past Year and Misuse of Prescription Psychotherapeutics in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 1.22P Any Use of Prescription Psychotherapeutics in Past Year and Misuse of Prescription Psychotherapeutics in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.23C Any Use of Pain Relievers in Past Year and Misuse of Pain Relievers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.23D Any Use of Pain Relievers in Past Year and Misuse of Pain Relievers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 1.23P Any Use of Pain Relievers in Past Year and Misuse of Pain Relievers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.24C Any Use of Tranquilizers in Past Year and Misuse of Tranquilizers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.24D Any Use of Tranquilizers in Past Year and Misuse of Tranquilizers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 1.24P Any Use of Tranquilizers in Past Year and Misuse of Tranquilizers in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.25C Any Use of Stimulants in Past Year and Misuse of Stimulants in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.25D Any Use of Stimulants in Past Year and Misuse of Stimulants in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 1.25P Any Use of Stimulants in Past Year and Misuse of Stimulants in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.26C Any Use of Sedatives in Past Year and Misuse of Sedatives in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.26D Any Use of Sedatives in Past Year and Misuse of Sedatives in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 1.26P Any Use of Sedatives in Past Year and Misuse of Sedatives in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.27C Misuse of Opioids in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.27D Misuse of Opioids in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 1.27P Misuse of Opioids in Past Year and Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.28C Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older and Misuse of Prescription Psychotherapeutics in Past Year among Past Year Any Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.28D Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older and Misuse of Prescription Psychotherapeutics in Past Year among Past Year Any Users Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 1.28P Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older and Misuse of Prescription Psychotherapeutics in Past Year among Past Year Any Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.29C Illicit Drug Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.29D Illicit Drug Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 1.29P Illicit Drug Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.30C Illicit Drug Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.30D Illicit Drug Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 1.30P Illicit Drug Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.31C Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.31D Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 1.31P Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.32C Marijuana Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.32D Marijuana Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 1.32P Marijuana Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 1.33C Marijuana Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 1.33D Marijuana Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017

2.3D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or 13: Standard Errors of Percentages, 2016 and 2017
2.3P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or 13: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.4C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 14 or 15: Standard Errors of Numbers in Thousands, 2016 and 2017
2.4D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 14 or 15: Standard Errors of Percentages, 2016 and 2017
2.4P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 14 or 15: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.5C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 16 or 17: Standard Errors of Numbers in Thousands, 2016 and 2017
2.5D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 16 or 17: Standard Errors of Percentages, 2016 and 2017
2.5P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 16 or 17: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.6C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 or Older: Standard Errors of Numbers in Thousands, 2016 and 2017
2.6D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 or Older: Standard Errors of Percentages, 2016 and 2017
2.6P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 or Older: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.7C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 25: Standard Errors of Numbers in Thousands, 2016 and 2017
2.7D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 25: Standard Errors of Percentages, 2016 and 2017
2.7P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 25: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.8C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 20: Standard Errors of Numbers in Thousands, 2016 and 2017
2.8D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 20: Standard Errors of Percentages, 2016 and 2017
2.8P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 18 to 20: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.9C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 21 to 25: Standard Errors of Numbers in Thousands, 2016 and 2017
2.9D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 21 to 25: Standard Errors of Percentages, 2016 and 2017
2.9P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 21 to 25: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.10C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 26 or Older: Standard Errors of Numbers in Thousands, 2016 and 2017
2.10D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 26 or Older: Standard Errors of Percentages, 2016 and 2017
2.10P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 26 or Older: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

2.11C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 26 to 34: Standard Errors of Numbers in Thousands, 2016 and 2017
2.11D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 26 to 34: Standard Errors of Percentages, 2016 and 2017
2.11P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 26 to 34: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.12C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 35 or Older: Standard Errors of Numbers in Thousands, 2016 and 2017
2.12D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 35 or Older: Standard Errors of Percentages, 2016 and 2017
2.12P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 35 or Older: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.13C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Males Aged 12 or Older: Standard Errors of Numbers in Thousands, 2016 and 2017
2.13D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Males Aged 12 or Older: Standard Errors of Percentages, 2016 and 2017
2.13P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Males Aged 12 or Older: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.14C	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Females Aged 12 or Older: Standard Errors of Numbers in Thousands, 2016 and 2017
2.14D	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Females Aged 12 or Older: Standard Errors of Percentages, 2016 and 2017
2.14P	Tobacco Product and Alcohol Use in Lifetime, Past Year, and Past Month among Females Aged 12 or Older: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.15C	Tobacco Product Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
2.15D	Tobacco Product Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
2.15P	Tobacco Product Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.16C	Cigarette Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
2.16D	Cigarette Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
2.16P	Cigarette Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.17C	Smokeless Tobacco Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
2.17D	Smokeless Tobacco Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
2.17P	Smokeless Tobacco Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.18C	Cigar Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
2.18D	Cigar Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
2.18P	Cigar Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.19C	Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
2.19D	Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
2.19P	Alcohol Use in Lifetime, Past Year, and Past Month among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

2.20C	Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
2.20D	Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
2.20P	Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.21C	Tobacco Product Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.21D	Tobacco Product Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.21P	Tobacco Product Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.22C	Tobacco Product Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.22D	Tobacco Product Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.22P	Tobacco Product Use in Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.23C	Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.23D	Tobacco Product Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.23P	Tobacco Product Use in Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.24C	Cigarette Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.24D	Cigarette Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.24P	Cigarette Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.25C	Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.25D	Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.25P	Cigarette Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.26C	Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.26D	Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.26P	Cigarette Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.27C	Smokeless Tobacco Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.27D	Smokeless Tobacco Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.27P	Smokeless Tobacco Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.28C	Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.28D	Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.28P	Smokeless Tobacco Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

2.29C	Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.29D	Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.29P	Smokeless Tobacco Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.30C	Cigar Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.30D	Cigar Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.30P	Cigar Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.31C	Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.31D	Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.31P	Cigar Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.32C	Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.32D	Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.32P	Cigar Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.33C	Alcohol Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.33D	Alcohol Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.33P	Alcohol Use in Lifetime among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.34C	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.34D	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.34P	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.35C	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.35D	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.35P	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.36C	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.36D	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.36P	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.37C	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.37D	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.37P	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016

2.46D	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.46P	Alcohol Use in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.47C	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.47D	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.47P	Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.48C	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.48D	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.48P	Binge Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.49C	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.49D	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.49P	Heavy Alcohol Use in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.50C	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.50D	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.50P	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.51C	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.51D	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.51P	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.52C	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.52D	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
2.52P	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 12 to 20, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
2.53C	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
2.53D	Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 2.53P Alcohol Use in Lifetime, Past Year, and Past Month and Binge and Heavy Alcohol Use in Past Month among Persons Aged 21 or Older, by Geographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.1C Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.1D Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 3.1P Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.2C Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Past Year Initiates of Specific Substances Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.2D Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Past Year Initiates of Specific Substances Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 3.2P Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Past Year Initiates of Specific Substances Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.3C Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Specific Substance Use Initiation Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.3D Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Specific Substance Use Initiation Status: Standard Errors of Percentages, 2016 and 2017
- 3.3P Perceived Great Risk of Harm Associated with Substance Use and Perceived Availability of Substances among Persons Aged 12 or Older, by Specific Substance Use Initiation Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.4C Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.4D Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.4P Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.5C Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 20, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.5D Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 20, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.5P Perceived Great Risk of Harm Associated with Cigarette and Alcohol Use among Persons Aged 12 to 20, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.6C Perceived Great Risk of Harm Associated with Marijuana and Cocaine Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.6D Perceived Great Risk of Harm Associated with Marijuana and Cocaine Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.6P Perceived Great Risk of Harm Associated with Marijuana and Cocaine Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.7C Perceived Great Risk of Harm Associated with Heroin and LSD Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 3.7D Perceived Great Risk of Harm Associated with Heroin and LSD Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.7P Perceived Great Risk of Harm Associated with Heroin and LSD Use among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.8C Perceived That Obtaining Specific Illicit Drugs Would Be Fairly or Very Easy among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.8D Perceived That Obtaining Specific Illicit Drugs Would Be Fairly or Very Easy among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.8P Perceived That Obtaining Specific Illicit Drugs Would Be Fairly or Very Easy among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.9C Youths Felt That Parents Would Strongly Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.9D Youths Felt That Parents Would Strongly Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.9P Youths Felt That Parents Would Strongly Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.10C Youths Felt That Close Friends Would Strongly Disapprove or Somewhat Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.10D Youths Felt That Close Friends Would Strongly Disapprove or Somewhat Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.10P Youths Felt That Close Friends Would Strongly Disapprove or Somewhat Disapprove of Youth's Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.11C Youths Strongly Disapproved or Somewhat Disapproved of Peers' Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.11D Youths Strongly Disapproved or Somewhat Disapproved of Peers' Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.11P Youths Strongly Disapproved or Somewhat Disapproved of Peers' Substance Use Behaviors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.12C Participated in a Prevention Program or Group in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.12D Participated in a Prevention Program or Group in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.12P Participated in a Prevention Program or Group in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.13C Participated in a Substance Use Program or Exposed to Substance Use Prevention Message in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.13D Participated in a Substance Use Program or Exposed to Substance Use Prevention Message in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.13P Participated in a Substance Use Program or Exposed to Substance Use Prevention Message in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 3.14C Participated in a Physical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.14D Participated in a Physical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.14P Participated in a Physical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.15C Participated in a Nonphysical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.15D Participated in a Nonphysical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.15P Participated in a Nonphysical Delinquent Behavior in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.16C Selected Risk and Protective Factors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.16D Selected Risk and Protective Factors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.16P Selected Risk and Protective Factors among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.17C Youths Agreed or Strongly Agreed with Statements about Religious Beliefs among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.17D Youths Agreed or Strongly Agreed with Statements about Religious Beliefs among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.17P Youths Agreed or Strongly Agreed with Statements about Religious Beliefs among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.18C Parents Always or Sometimes Took Part in Specific Behaviors in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.18D Parents Always or Sometimes Took Part in Specific Behaviors in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.18P Parents Always or Sometimes Took Part in Specific Behaviors in Past Year among Persons Aged 12 to 17, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.19C Measures of Student Characteristics in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.19D Measures of Student Characteristics in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.19P Measures of Student Characteristics in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.20C Adults Always or Sometimes Took Part in Specific School-Related Behaviors in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.20D Adults Always or Sometimes Took Part in Specific School-Related Behaviors in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.20P Adults Always or Sometimes Took Part in Specific School-Related Behaviors in Past Year among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 3.21C Youths Perceived That All or Most Students in Grade Level Use Specific Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 3.21D Youths Perceived That All or Most Students in Grade Level Use Specific Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 3.21P Youths Perceived That All or Most Students in Grade Level Use Specific Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Demographic and Geographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 3.22C Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Risk of Harm Associated with Substance Use Behaviors: Standard Errors of Numbers in Thousands, 2017
- 3.22D Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Risk of Harm Associated with Substance Use Behaviors: Standard Errors of Percentages, 2017
- 3.23C Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Availability of Selected Illicit Drugs: Standard Errors of Numbers in Thousands, 2017
- 3.23D Past Month Use of Selected Substances among Persons Aged 12 to 17, by Perceived Availability of Selected Illicit Drugs: Standard Errors of Percentages, 2017
- 3.24C Perceived Availability of Selected Illicit Drugs among Persons Aged 12 or Older, by Past Month Substance Use Status: Standard Errors of Numbers in Thousands, 2017
- 3.24D Perceived Availability of Selected Illicit Drugs among Persons Aged 12 or Older, by Past Month Substance Use Status: Standard Errors of Percentages, 2017
- 3.25C Perceived Availability of Selected Illicit Drugs among Persons Aged 12 to 17, by Past Month Substance Use Status: Standard Errors of Numbers in Thousands, 2017
- 3.25D Perceived Availability of Selected Illicit Drugs among Persons Aged 12 to 17, by Past Month Substance Use Status: Standard Errors of Percentages, 2017
- 3.26C Perceived Availability of Selected Illicit Drugs among Persons Aged 18 or Older, by Past Month Substance Use Status: Standard Errors of Numbers in Thousands, 2017
- 3.26D Perceived Availability of Selected Illicit Drugs among Persons Aged 18 or Older, by Past Month Substance Use Status: Standard Errors of Percentages, 2017
- 3.27C Perceived Availability of Selected Illicit Drugs among Persons Aged 18 to 25, by Past Month Substance Use Status: Standard Errors of Numbers in Thousands, 2017
- 3.27D Perceived Availability of Selected Illicit Drugs among Persons Aged 18 to 25, by Past Month Substance Use Status: Standard Errors of Percentages, 2017
- 3.28C Perceived Availability of Selected Illicit Drugs among Persons Aged 26 or Older, by Past Month Substance Use Status: Standard Errors of Numbers in Thousands, 2017
- 3.28D Perceived Availability of Selected Illicit Drugs among Persons Aged 26 or Older, by Past Month Substance Use Status: Standard Errors of Percentages, 2017
- 3.29C Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Parents' Feelings about Substance Use Behaviors: Standard Errors of Numbers in Thousands, 2017
- 3.29D Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Parents' Feelings about Substance Use Behaviors: Standard Errors of Percentages, 2017
- 3.30C Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Close Friends' Feelings and Youth's Feelings about Peers' Substance Use Behaviors: Standard Errors of Numbers in Thousands, 2017
- 3.30D Past Month Use of Selected Substances among Persons Aged 12 to 17, by Youth's Perceptions of Close Friends' Feelings and Youth's Feelings about Peers' Substance Use Behaviors: Standard Errors of Percentages, 2017
- 3.31C Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Youth's Participation in Prevention or Substance Use Programs and Exposure to Substance Use Prevention Messages and Youth's Delinquency in Past Year: Standard Errors of Numbers in Thousands, 2017

## LIST OF TABLES (Continued)

### Table

- 3.31D Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Youth's Participation in Prevention or Substance Use Programs and Exposure to Substance Use Prevention Messages and Youth's Delinquency in Past Year: Standard Errors of Percentages, 2017
- 3.32C Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Risk and Protective Factors, Religious Beliefs, and Past Year Parental Involvement: Standard Errors of Numbers in Thousands, 2017
- 3.32D Past Month Use of Selected Substances among Persons Aged 12 to 17, by Measures of Risk and Protective Factors, Religious Beliefs, and Past Year Parental Involvement: Standard Errors of Percentages, 2017
- 3.33C Past Month Use of Selected Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Measures of Scholastic Environment: Standard Errors of Numbers in Thousands, 2017
- 3.33D Past Month Use of Selected Substances among Persons Aged 12 to 17 Who Were Enrolled in School in Past Year, by Measures of Scholastic Environment: Standard Errors of Percentages, 2017
- 4.1D Past Year Initiation of Marijuana Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Marijuana Use, and Past Year Marijuana Users Aged 12 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.1P Past Year Initiation of Marijuana Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Marijuana Use, and Past Year Marijuana Users Aged 12 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.2D Past Year Initiation of Cigarette Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Cigarette Use, and Past Year Cigarette Users Aged 12 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.2P Past Year Initiation of Cigarette Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Cigarette Use, and Past Year Cigarette Users Aged 12 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.3D Past Year Initiation of Alcohol Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Alcohol Use, and Past Year Alcohol Users Aged 12 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.3P Past Year Initiation of Alcohol Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Alcohol Use, and Past Year Alcohol Users Aged 12 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.4D Past Year Initiation of Substance Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 12 or Older: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.4P Past Year Initiation of Substance Use among Persons Aged 12 or Older, Persons Aged 12 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 12 or Older: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.5D Past Year Initiation of Substance Use among Persons Aged 12 to 17, Persons Aged 12 to 17 At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 12 to 17: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.5P Past Year Initiation of Substance Use among Persons Aged 12 to 17, Persons Aged 12 to 17 At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 12 to 17: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.6D Past Year Initiation of Substance Use among Persons Aged 18 or Older, Persons Aged 18 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 18 or Older: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.6P Past Year Initiation of Substance Use among Persons Aged 18 or Older, Persons Aged 18 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 18 or Older: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 4.7D Past Year Initiation of Substance Use among Persons Aged 18 to 25, Persons Aged 18 to 25 At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 18 to 25: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.7P Past Year Initiation of Substance Use among Persons Aged 18 to 25, Persons Aged 18 to 25 At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 18 to 25: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.8D Past Year Initiation of Substance Use among Persons Aged 26 or Older, Persons Aged 26 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 26 or Older: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 4.8P Past Year Initiation of Substance Use among Persons Aged 26 or Older, Persons Aged 26 or Older At Risk for Initiation of Substance Use, and Past Year Substance Users Aged 26 or Older: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 4.9C Past Year Initiation of Substance Use among Persons Aged 12 or Older, by Gender: Standard Errors of Numbers in Thousands, 2016 and 2017
- 4.10C Past Year Initiation of Substance Use among Persons Aged 12 or Older Who Initiated Use Prior to Age 18, by Gender: Standard Errors of Numbers in Thousands, 2016 and 2017
- 4.11C Past Year Initiation of Substance Use among Persons Aged 12 or Older Who Initiated Use Prior to Age 21, by Gender: Standard Errors of Numbers in Thousands, 2016 and 2017
- 4.12C Past Year Initiation of Substance Use among Persons Aged 12 to 49, by Gender: Standard Errors of Numbers in Thousands, 2016 and 2017
- 4.13D Standard Errors of Mean Age at First Substance Use among Past Year Initiates Aged 12 to 49, by Gender: 2016 and 2017
- 4.13P *P* Values from Tests of Differences of Mean Age at First Substance Use among Past Year Initiates Aged 12 to 49, by Gender: 2017 Versus 2016
- 5.1C Substance Use Disorder Status in Past Year among Persons Aged 12 or Older: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.1D Substance Use Disorder Status in Past Year among Persons Aged 12 or Older: Standard Errors of Percentages, 2016 and 2017
- 5.1P Substance Use Disorder Status in Past Year among Persons Aged 12 or Older: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.2C Substance Use Disorder for Specific Substances in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.2D Substance Use Disorder for Specific Substances in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.2P Substance Use Disorder for Specific Substances in Past Year among Persons Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.3C Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.3D Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 5.3P Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.4C Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.4D Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.4P Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.5C Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

5.5D	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.5P	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.6C	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.6D	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.6P	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.7C	Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.7D	Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.7P	Illicit Drug Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.8C	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.8D	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.8P	Alcohol Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.9C	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.9D	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.9P	Substance Use Disorder in Past Year among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.10C	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
5.10D	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
5.10P	Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.11C	Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.11D	Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.11P	Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.12C	Received Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.12D	Received Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
5.12P	Received Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
5.13C	Received Both Illicit Drug and Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
5.13D	Received Both Illicit Drug and Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.13P Received Both Illicit Drug and Alcohol Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.14C Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.14D Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.14P Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.15C Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.15D Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.15P Received Substance Use Treatment in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.16C Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.16D Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.16P Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.17C Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.17D Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.17P Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.18C Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.18D Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.18P Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.19C Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.19D Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.19P Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.20C Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.20D Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.20P Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.21C Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.21D Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 5.21P Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.22C Received Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.22D Received Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.22P Received Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.23C Received Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.23D Received Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.23P Received Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.24C Received Both Illicit Drug and Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.24D Received Both Illicit Drug and Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.24P Received Both Illicit Drug and Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.25C Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.25D Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.25P Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.26C Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.26D Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.26P Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.27C Type of Substance Use Treatment Received at a Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.27D Type of Substance Use Treatment Received at a Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.27P Type of Substance Use Treatment Received at a Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Treatment for Substance Use at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.28C Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.28D Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.28P Substances for Which Last or Current Treatment Was Received among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.29C Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.29D Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.29P Locations Received Illicit Drug Treatment in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.30C Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.30D Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.30P Locations Received Alcohol Treatment in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.31C Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.31D Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.31P Locations Received Substance Use Treatment in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.32C Source of Payment for Last or Current Illicit Drug Treatment among Persons Aged 12 or Older Who Received Their Last or Current Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.32D Source of Payment for Last or Current Illicit Drug Treatment among Persons Aged 12 or Older Who Received Their Last or Current Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.32P Source of Payment for Last or Current Illicit Drug Treatment among Persons Aged 12 or Older Who Received Their Last or Current Illicit Drug Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.33C Source of Payment for Last or Current Alcohol Treatment among Persons Aged 12 or Older Who Received Their Last or Current Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.33D Source of Payment for Last or Current Alcohol Treatment among Persons Aged 12 or Older Who Received Their Last or Current Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.33P Source of Payment for Last or Current Alcohol Treatment among Persons Aged 12 or Older Who Received Their Last or Current Alcohol Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.34C Source of Payment for Last or Current Substance Use Treatment among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.34D Source of Payment for Last or Current Substance Use Treatment among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.34P Source of Payment for Last or Current Substance Use Treatment among Persons Aged 12 or Older Who Received Their Last or Current Substance Use Treatment at a Specialty Facility in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.35C Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder of Specific Substances: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.35D Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder of Specific Substances: Standard Errors of Percentages, 2016 and 2017
- 5.35P Received Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder of Specific Substances: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.36C Type of Substance Use Treatment Received at Any Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.36D Type of Substance Use Treatment Received at Any Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.36P Type of Substance Use Treatment Received at Any Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.37C Receipt of Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility and Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.37D Receipt of Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility and Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.37P Receipt of Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility and Type of Substance Use Treatment Received in Past Year among Persons Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.38C Received Illicit Drug Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.38D Received Illicit Drug Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.38P Received Illicit Drug Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Illicit Drug Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.39C Received Alcohol Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.39D Received Alcohol Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.39P Received Alcohol Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Alcohol Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 5.40C Received Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.40D Received Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 5.40P Received Substance Use Treatment at a Specialty Facility and/or a Non-Specialty Facility in Past Year among Persons Aged 12 or Older Who Received Substance Use Treatment in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.41C Type of Substance Use Treatment Received at Any Treatment Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.41D Type of Substance Use Treatment Received at Any Treatment Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder Status: Standard Errors of Percentages, 2016 and 2017
- 5.41P Type of Substance Use Treatment Received at Any Treatment Location or at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Past Year Substance Use Disorder Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.42C Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.42D Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
- 5.42P Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.43C Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.43D Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.43P Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.44C Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.44D Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.44P Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.45C Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.45D Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.45P Need for and Receipt of Illicit Drug Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Geographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.46C Perceived Need for Illicit Drug Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Illicit Drug Treatment, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.46D Perceived Need for Illicit Drug Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Illicit Drug Treatment, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.46P Perceived Need for Illicit Drug Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Illicit Drug Treatment, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.47C Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.47D Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.47P Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.48C Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.48D Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.48P Need for and Receipt of Alcohol Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.49C Perceived Need for Alcohol Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Alcohol Treatment, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.49D Perceived Need for Alcohol Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Alcohol Treatment, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.49P Perceived Need for Alcohol Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Alcohol Treatment, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.50C Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.50D Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.50P Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 12 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.51C Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands and Standard Errors of Percentages, 2016 and 2017
- 5.51D Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 5.51P Need for and Receipt of Substance Use Treatment at a Specialty Facility in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 5.52C Perceived Need for Substance Use Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 5.52D Perceived Need for Substance Use Treatment and Whether Made an Effort to Get Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 5.53C Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Standard Errors of Numbers in Thousands, 2017
- 5.53D Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Standard Errors of Percentages, 2017
- 5.54C Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 18 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Standard Errors of Numbers in Thousands, 2017
- 5.54D Detailed Reasons for Not Receiving Substance Use Treatment in Past Year among Persons Aged 18 or Older Classified as Needing But Not Receiving Substance Use Treatment at a Specialty Facility and Who Felt a Need for Substance Use Treatment in Past Year: Standard Errors of Percentages, 2017
- 6.1C Number of Days Used Marijuana in Past Year among Past Year Users and Number of Days Used Marijuana in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.1D Number of Days Used Marijuana in Past Year among Past Year Users and Number of Days Used Marijuana in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.1P Number of Days Used Marijuana in Past Year among Past Year Users and Number of Days Used Marijuana in Past Month among Past Month Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.2C Number of Days Used Cocaine in Past Year among Past Year Users and Number of Days Used Cocaine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.2D Number of Days Used Cocaine in Past Year among Past Year Users and Number of Days Used Cocaine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.2P Number of Days Used Cocaine in Past Year among Past Year Users and Number of Days Used Cocaine in Past Month among Past Month Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.3C Number of Days Used Hallucinogens in Past Year among Past Year Users and Number of Days Used Hallucinogens in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.3D Number of Days Used Hallucinogens in Past Year among Past Year Users and Number of Days Used Hallucinogens in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.3P Number of Days Used Hallucinogens in Past Year among Past Year Users and Number of Days Used Hallucinogens in Past Month among Past Month Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.4C Number of Days Used Inhalants in Past Year among Past Year Users and Number of Days Used Inhalants in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.4D Number of Days Used Inhalants in Past Year among Past Year Users and Number of Days Used Inhalants in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.4P Number of Days Used Inhalants in Past Year among Past Year Users and Number of Days Used Inhalants in Past Month among Past Month Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.5C Number of Days Used Methamphetamine in Past Year among Past Year Users and Number of Days Used Methamphetamine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.5D Number of Days Used Methamphetamine in Past Year among Past Year Users and Number of Days Used Methamphetamine in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 6.5P Number of Days Used Methamphetamine in Past Year among Past Year Users and Number of Days Used Methamphetamine in Past Month among Past Month Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.6C Number of Days Misused Prescription Psychotherapeutics in Past Month among Past Month Misusers Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.6D Number of Days Misused Prescription Psychotherapeutics in Past Month among Past Month Misusers Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.6P Number of Days Misused Prescription Psychotherapeutics in Past Month among Past Month Misusers Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.7C Number of Days Used Cigarettes in Past Month among Past Month Users and Number of Cigarettes Smoked Per Day among Daily Smokers Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.7D Number of Days Used Cigarettes in Past Month among Past Month Users and Number of Cigarettes Smoked Per Day among Daily Smokers Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.7P Number of Days Used Cigarettes in Past Month among Past Month Users and Number of Cigarettes Smoked Per Day among Daily Smokers Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.8C Number of Days Used Alcohol in Past Year among Past Year Users and Number of Days Used Alcohol in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands and Averages, 2016 and 2017
- 6.8D Number of Days Used Alcohol in Past Year among Past Year Users and Number of Days Used Alcohol in Past Month among Past Month Users Aged 12 or Older, by Age Group: Standard Errors of Percentages and Averages, 2016 and 2017
- 6.8P Number of Days Used Alcohol in Past Year among Past Year Users and Number of Days Used Alcohol in Past Month among Past Month Users Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages and Averages, 2017 Versus 2016
- 6.9C Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.9D Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Percentages, 2016 and 2017
- 6.9P Any Use and Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.10C Any Use and Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.10D Any Use and Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Percentages, 2016 and 2017
- 6.10P Any Use and Misuse of Pain Relievers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.11C Any Use and Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.11D Any Use and Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Percentages, 2016 and 2017
- 6.11P Any Use and Misuse of Tranquilizers in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 6.12C Any Use and Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.12D Any Use and Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Percentages, 2016 and 2017
- 6.12P Any Use and Misuse of Stimulants in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.13C Any Use and Misuse of Sedatives in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.13D Any Use and Misuse of Sedatives in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: Standard Errors of Percentages, 2016 and 2017
- 6.13P Any Use and Misuse of Sedatives in Past Year among Persons Aged 12 or Older, by Substance Use Other Than Prescription Psychotherapeutic Use in Past Year: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.14C Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.14D Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: Standard Errors of Percentages, 2016 and 2017
- 6.14P Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.15C Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.15D Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: Standard Errors of Percentages, 2016 and 2017
- 6.15P Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.16C Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.16D Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: Standard Errors of Percentages, 2016 and 2017
- 6.16P Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Past Month Cigarette Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.17C Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.17D Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette Use: Standard Errors of Percentages, 2016 and 2017
- 6.17P Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Past Month Cigarette Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.18C Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.18D Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette Use: Standard Errors of Percentages, 2016 and 2017
- 6.18P Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Past Month Cigarette Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.19C Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.19D Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.19P Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Levels of Past Month Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 6.20C Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.20D Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.20P Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Levels of Past Month Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.21C Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.21D Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.21P Types of Illicit Drug Use in Past Month among Persons Aged 18 or Older, by Levels of Past Month Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.22C Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.22D Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.22P Types of Illicit Drug Use in Past Month among Persons Aged 18 to 25, by Levels of Past Month Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.23C Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.23D Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.23P Types of Illicit Drug Use in Past Month among Persons Aged 26 or Older, by Levels of Past Month Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.24C Types of Illicit Drug Use in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.24D Types of Illicit Drug Use in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Standard Errors of Percentages, 2016 and 2017
- 6.24P Types of Illicit Drug Use in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.25C Drugs Used with Alcohol or within 2 Hours of Alcohol Use on Most Recent Use of Alcohol in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.25D Drugs Used with Alcohol or within 2 Hours of Alcohol Use on Most Recent Use of Alcohol in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: Standard Errors of Percentages, 2016 and 2017
- 6.25P Drugs Used with Alcohol or within 2 Hours of Alcohol Use on Most Recent Use of Alcohol in Past Month among Past Month Alcohol Users Aged 12 or Older, by Age Group and Underage and Legal Drinking Age Groups: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.26C Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette and Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.26D Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette and Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.26P Types of Illicit Drug Use in Past Month among Persons Aged 12 or Older, by Past Month Cigarette and Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.27C Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette and Alcohol Use: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.27D Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette and Alcohol Use: Standard Errors of Percentages, 2016 and 2017
- 6.27P Types of Illicit Drug Use in Past Month among Persons Aged 12 to 17, by Past Month Cigarette and Alcohol Use: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 6.46P Cigarette Use and Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Detailed Age Category: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.47C Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.47D Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.47P Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.48C Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.48D Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.48P Nicotine (Cigarette) Dependence in Past Month among Persons Aged 12 or Older, by Age Group and Geographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.49C Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.49D Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.49P Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.50C Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes Daily and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.50D Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes Daily and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.50P Nicotine (Cigarette) Dependence in Past Month among Past Month Cigarette Smokers Aged 18 or Older, by Age First Used Cigarettes Daily and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.51C Illicit Drug Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Marijuana and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.51D Illicit Drug Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Marijuana and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.51P Illicit Drug Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Marijuana and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 6.52C Alcohol Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Alcohol and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.52D Alcohol Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Alcohol and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.52P Alcohol Use Disorder in Past Year among Persons Aged 18 or Older, by Age First Used Alcohol and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.53C Source Where Pain Relievers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.53D Source Where Pain Relievers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.53P Source Where Pain Relievers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.54C Source Where Friend or Relative Obtained Pain Relievers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Pain Relievers from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.54D Source Where Friend or Relative Obtained Pain Relievers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Pain Relievers from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.54P Source Where Friend or Relative Obtained Pain Relievers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Pain Relievers from a Friend or Relative for Free in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.55C Source Where Tranquilizers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.55D Source Where Tranquilizers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.55P Source Where Tranquilizers Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.56C Source Where Friend or Relative Obtained Tranquilizers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Tranquilizers from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.56D Source Where Friend or Relative Obtained Tranquilizers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Tranquilizers from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.56P Source Where Friend or Relative Obtained Tranquilizers among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Tranquilizers from a Friend or Relative for Free in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.57C Source Where Stimulants Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.57D Source Where Stimulants Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.57P Source Where Stimulants Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.58C Source Where Friend or Relative Obtained Stimulants among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Stimulants from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.58D Source Where Friend or Relative Obtained Stimulants among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Stimulants from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.58P Source Where Friend or Relative Obtained Stimulants among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Stimulants from a Friend or Relative for Free in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 6.59C Source Where Sedatives Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.59D Source Where Sedatives Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.59P Source Where Sedatives Were Obtained for Most Recent Misuse among Past Year Misusers Aged 12 or Older, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.60C Source Where Friend or Relative Obtained Sedatives among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Sedatives from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.60D Source Where Friend or Relative Obtained Sedatives among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Sedatives from a Friend or Relative for Free in Past Year, by Age Group: Standard Errors of Percentages, 2016 and 2017
- 6.60P Source Where Friend or Relative Obtained Sedatives among Past Year Misusers Aged 12 or Older Who Obtained Most Recently Misused Sedatives from a Friend or Relative for Free in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.61C Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 12 or Older of Each Type of Prescription Psychotherapeutic: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.61D Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 12 or Older of Each Type of Prescription Psychotherapeutic: Standard Errors of Percentages, 2016 and 2017
- 6.61P Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 12 or Older of Each Type of Prescription Psychotherapeutic: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.62C Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 18 or Older of Each Type of Prescription Psychotherapeutic: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.62D Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 18 or Older of Each Type of Prescription Psychotherapeutic: Standard Errors of Percentages, 2016 and 2017
- 6.62P Main Reasons for Last Episode of Misuse of Prescription Psychotherapeutics among Past Year Misusers Aged 18 or Older of Each Type of Prescription Psychotherapeutic: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.63C Social Context and Location of Most Recent Alcohol Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.63D Social Context and Location of Most Recent Alcohol Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Standard Errors of Percentages, 2016 and 2017
- 6.63P Social Context and Location of Most Recent Alcohol Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.64C Source Where Alcohol Was Obtained for Most Recent Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.64D Source Where Alcohol Was Obtained for Most Recent Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: Standard Errors of Percentages, 2016 and 2017
- 6.64P Source Where Alcohol Was Obtained for Most Recent Use in Past Month among Past Month Alcohol Users Aged 12 to 20, by Age Group and Gender: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.65C Types of Illicit Drug Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.65D Types of Illicit Drug Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Standard Errors of Percentages, 2016 and 2017
- 6.65P Types of Illicit Drug Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 6.66C Illicit Drug Use, Marijuana Use, and Opioid Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.66D Illicit Drug Use, Marijuana Use, and Opioid Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.66P Illicit Drug Use, Marijuana Use, and Opioid Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.67C Tobacco Use, Cigarette Use, Daily Cigarette Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.67D Tobacco Use, Cigarette Use, Daily Cigarette Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.67P Tobacco Use, Cigarette Use, Daily Cigarette Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.68C Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.68D Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: Standard Errors of Percentages, 2016 and 2017
- 6.68P Alcohol Use, Binge Alcohol Use, and Heavy Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status, Demographic, Socioeconomic, and Pregnancy Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.69C Illicit Drug, Tobacco Product, and Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.69D Illicit Drug, Tobacco Product, and Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: Standard Errors of Percentages, 2016 and 2017
- 6.69P Illicit Drug, Tobacco Product, and Alcohol Use in Past Month among Females Aged 15 to 44, by Pregnancy Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.70C Types of Illicit Drug Use in Past Month among Persons Aged 18 to 22, by College Enrollment Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.70D Types of Illicit Drug Use in Past Month among Persons Aged 18 to 22, by College Enrollment Status: Standard Errors of Percentages, 2016 and 2017
- 6.70P Types of Illicit Drug Use in Past Month among Persons Aged 18 to 22, by College Enrollment Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.71C Types of Illicit Drug Use in Past Month among Males Aged 18 to 22, by College Enrollment Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.71D Types of Illicit Drug Use in Past Month among Males Aged 18 to 22, by College Enrollment Status: Standard Errors of Percentages, 2016 and 2017
- 6.71P Types of Illicit Drug Use in Past Month among Males Aged 18 to 22, by College Enrollment Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 6.72C Types of Illicit Drug Use in Past Month among Females Aged 18 to 22, by College Enrollment Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 6.72D Types of Illicit Drug Use in Past Month among Females Aged 18 to 22, by College Enrollment Status: Standard Errors of Percentages, 2016 and 2017
- 6.72P Types of Illicit Drug Use in Past Month among Females Aged 18 to 22, by College Enrollment Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016

7.39D	Marijuana Use in Past Month among Persons Aged 12 or Older, by Age Group: Standard Errors of Percentages, 1971-2017
7.40D	Cocaine Use in Past Year among Persons Aged 12 or Older, by Age Group: Standard Errors of Percentages, 1971-2017
8.1C	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Gender and Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
8.1D	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Gender and Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
8.1P	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Gender and Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.2C	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
8.2D	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
8.2P	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.3C	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
8.3D	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
8.3P	Any Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.4C	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Gender and Detailed Age Category: Standard Errors of Numbers in Thousands, 2016 and 2017
8.4D	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Gender and Detailed Age Category: Standard Errors of Percentages, 2016 and 2017
8.4P	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Gender and Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.5C	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
8.5D	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
8.5P	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.6C	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
8.6D	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
8.6P	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Age Group and Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.7C	Levels of Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
8.7D	Levels of Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
8.7P	Levels of Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.8C	Levels of Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
8.8D	Levels of Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
8.8P	Levels of Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016

## LIST OF TABLES (Continued)

### Table

- 8.9C Types of Illicit Drug Use in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness: Standard Errors of Numbers in Thousands, 2016 and 2017
- 8.9D Types of Illicit Drug Use in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness: Standard Errors of Percentages, 2016 and 2017
- 8.9P Types of Illicit Drug Use in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 8.10C Any Use of Prescription Psychotherapeutics in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 8.10D Any Use of Prescription Psychotherapeutics in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
- 8.10P Any Use of Prescription Psychotherapeutics in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 8.11C Any Use of Pain Relievers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 8.11D Any Use of Pain Relievers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
- 8.11P Any Use of Pain Relievers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 8.12C Any Use of Tranquilizers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 8.12D Any Use of Tranquilizers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
- 8.12P Any Use of Tranquilizers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 8.13C Any Use of Stimulants in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 8.13D Any Use of Stimulants in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
- 8.13P Any Use of Stimulants in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 8.14C Any Use of Sedatives in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 8.14D Any Use of Sedatives in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
- 8.14P Any Use of Sedatives in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 8.15C Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

8.15D	Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
8.15P	Misuse of Prescription Psychotherapeutics in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.16C	Misuse of Pain Relievers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
8.16D	Misuse of Pain Relievers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
8.16P	Misuse of Pain Relievers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.17C	Misuse of Tranquilizers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
8.17D	Misuse of Tranquilizers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
8.17P	Misuse of Tranquilizers in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.18C	Misuse of Stimulants in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
8.18D	Misuse of Stimulants in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
8.18P	Misuse of Stimulants in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.19C	Misuse of Sedatives in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
8.19D	Misuse of Sedatives in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: Standard Errors of Percentages, 2016 and 2017
8.19P	Misuse of Sedatives in Past Year among Persons Aged 18 or Older, by Past Year Level and Status of Mental Illness, Past Year Status of Major Depressive Episode, Past Year Status of Serious Thoughts of Suicide, and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.20C	Tobacco Product and Alcohol Use in Past Year and Past Month among Persons Aged 18 or Older, by Past Year Level of Mental Illness: Standard Errors of Numbers in Thousands, 2016 and 2017
8.20D	Tobacco Product and Alcohol Use in Past Year and Past Month among Persons Aged 18 or Older, by Past Year Level of Mental Illness: Standard Errors of Percentages, 2016 and 2017
8.20P	Tobacco Product and Alcohol Use in Past Year and Past Month among Persons Aged 18 or Older, by Past Year Level of Mental Illness: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016
8.21C	Level of Mental Illness in Past Year among Persons Aged 18 or Older, by Past Year Substance Use Disorder Status and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
8.21D	Level of Mental Illness in Past Year among Persons Aged 18 or Older, by Past Year Substance Use Disorder Status and Age Group: Standard Errors of Percentages, 2016 and 2017
8.21P	Level of Mental Illness in Past Year among Persons Aged 18 or Older, by Past Year Substance Use Disorder Status and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2016

- 9.7C Had at Least One Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, and Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with MDE or MDE with Severe Impairment in Past Year, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.7D Had at Least One Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, and Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with MDE or MDE with Severe Impairment in Past Year, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 9.7P Had at Least One Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, and Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with MDE or MDE with Severe Impairment in Past Year, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.8C Had at Least One Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, and Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with MDE or MDE with Severe Impairment in Past Year, by Geographic, Socioeconomic, and Health Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.8D Had at Least One Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, and Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with MDE or MDE with Severe Impairment in Past Year, by Geographic, Socioeconomic, and Health Characteristics: Standard Errors of Percentages, 2016 and 2017
- 9.8P Had at Least One Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, and Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with MDE or MDE with Severe Impairment in Past Year, by Geographic, Socioeconomic, and Health Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.9C Substance Use in Past Year and Past Month among Persons Aged 12 to 17, by Past Year Major Depressive Episode (MDE) Status: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.9D Substance Use in Past Year and Past Month among Persons Aged 12 to 17, by Past Year Major Depressive Episode (MDE) Status: Standard Errors of Percentages, 2016 and 2017
- 9.9P Substance Use in Past Year and Past Month among Persons Aged 12 to 17, by Past Year Major Depressive Episode (MDE) Status: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.10C Had at Least One Major Depressive Episode (MDE) in Past Year among Persons Aged 12 to 17, by Past Year Substance Use Disorder Status and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.10D Had at Least One Major Depressive Episode (MDE) in Past Year among Persons Aged 12 to 17, by Past Year Substance Use Disorder Status and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 9.10P Had at Least One Major Depressive Episode (MDE) in Past Year among Persons Aged 12 to 17, by Past Year Substance Use Disorder Status and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.11C Substance Use Disorder Status in Past Year among Persons Aged 12 to 17, by Past Year Major Depressive Episode (MDE) Status and Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.11D Substance Use Disorder Status in Past Year among Persons Aged 12 to 17, by Past Year Major Depressive Episode (MDE) Status and Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 9.11P Substance Use Disorder Status in Past Year among Persons Aged 12 to 17, by Past Year Major Depressive Episode (MDE) Status and Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.12C Co-Occurring Substance Use Disorder and Major Depressive Episode (MDE) in Past Year and Co-Occurring Substance Use Disorder and MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.12D Co-Occurring Substance Use Disorder and Major Depressive Episode (MDE) in Past Year and Co-Occurring Substance Use Disorder and MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Standard Errors of Percentages, 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- 9.12P Co-Occurring Substance Use Disorder and Major Depressive Episode (MDE) in Past Year and Co-Occurring Substance Use Disorder and MDE with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.13C Types of Professional Seen among Persons Aged 12 to 17 with Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year Who Saw or Talked to a Professional about Depression in Past Year: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.13D Types of Professional Seen among Persons Aged 12 to 17 with Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year Who Saw or Talked to a Professional about Depression in Past Year: Standard Errors of Percentages, 2016 and 2017
- 9.13P Types of Professional Seen among Persons Aged 12 to 17 with Major Depressive Episode (MDE) or MDE with Severe Impairment in Past Year Who Saw or Talked to a Professional about Depression in Past Year: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.14C Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode (MDE), by Demographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.14D Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode (MDE), by Demographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2016 and 2017
- 9.14P Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode (MDE), by Demographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 9.15C Received Substance Use Treatment at a Specialty Facility and/or Mental Health Services (Specialty or Nonspecialty) in Past Year among Persons Aged 12 to 17, by Past Year Substance Use Disorder and Major Depressive Episode (MDE) Status and Age Group: Standard Errors of Numbers in Thousands, 2016 and 2017
- 9.15D Received Substance Use Treatment at a Specialty Facility and/or Mental Health Services (Specialty or Nonspecialty) in Past Year among Persons Aged 12 to 17, by Past Year Substance Use Disorder and Major Depressive Episode (MDE) Status and Age Group: Standard Errors of Percentages, 2016 and 2017
- 9.15P Received Substance Use Treatment at a Specialty Facility and/or Mental Health Services (Specialty or Nonspecialty) in Past Year among Persons Aged 12 to 17, by Past Year Substance Use Disorder and Major Depressive Episode (MDE) Status and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2016
- 10.1C Any Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
- 10.1D Any Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
- 10.1P Any Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
- 10.2C Any Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
- 10.2D Any Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2008-2017
- 10.2P Any Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
- 10.3C Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
- 10.3D Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
- 10.3P Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
- 10.4C Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
- 10.4D Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2008-2017

## LIST OF TABLES (Continued)

### Table

10.4P	Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.5C	Any Mental Illness Excluding Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.5D	Any Mental Illness Excluding Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.5P	Any Mental Illness Excluding Serious Mental Illness in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.6C	Received Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2002-2017
10.6D	Received Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2002-2017
10.6P	Received Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
10.7C	Received Mental Health Services in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2002-2017
10.7D	Received Mental Health Services in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2002-2017
10.7P	Received Mental Health Services in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
10.8C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.8D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.8P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.9C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.9D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2008-2017
10.9P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.10C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.10D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.10P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.11C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.11D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2008-2017
10.11P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016

## LIST OF TABLES (Continued)

### Table

10.12C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.12D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.12P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.13C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.13D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2008-2017
10.13P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with No Past Year Mental Illness, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.14C	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Excluding Serious Mental Illness, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.14D	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Excluding Serious Mental Illness, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.14P	Received Mental Health Services in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Excluding Serious Mental Illness, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.15C	Received Only Prescription Medication as a Type of Mental Health Service in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Past Year Level of Mental Illness and Age Group: Standard Errors of Numbers in Thousands, 2008-2017
10.15D	Received Only Prescription Medication as a Type of Mental Health Service in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Past Year Level of Mental Illness and Age Group: Standard Errors of Percentages, 2008-2017
10.15P	Received Only Prescription Medication as a Type of Mental Health Service in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Past Year Level of Mental Illness and Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.16C	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older, by Age Group: Standard Errors of Numbers in Thousands, 2002-2017
10.16D	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older, by Age Group: Standard Errors of Percentages, 2002-2017
10.16P	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older, by Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
10.17C	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Age Group: Standard Errors of Numbers in Thousands, 2008-2017
10.17D	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Age Group: Standard Errors of Percentages, 2008-2017
10.17P	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness, by Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.18C	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Age Group: Standard Errors of Numbers in Thousands, 2008-2017
10.18D	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Age Group: Standard Errors of Percentages, 2008-2017
10.18P	Type of Mental Health Service Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness, by Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016

## LIST OF TABLES (Continued)

### Table

10.19C	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older Who Received Outpatient Mental Health Services in Past Year: Standard Errors of Numbers in Thousands, 2002-2017
10.19D	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older Who Received Outpatient Mental Health Services in Past Year: Standard Errors of Percentages, 2002-2017
10.19P	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older Who Received Outpatient Mental Health Services in Past Year: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
10.20C	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Outpatient Mental Health Services in Past Year: Standard Errors of Numbers in Thousands, 2008-2017
10.20D	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Outpatient Mental Health Services in Past Year: Standard Errors of Percentages, 2008-2017
10.20P	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Outpatient Mental Health Services in Past Year: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.21C	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Outpatient Mental Health Services in Past Year: Standard Errors of Numbers in Thousands, 2008-2017
10.21D	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Outpatient Mental Health Services in Past Year: Standard Errors of Percentages, 2008-2017
10.21P	Locations of Outpatient Mental Health Services among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Outpatient Mental Health Services in Past Year: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.22C	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2002-2017
10.22D	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Age Group: Standard Errors of Percentages, 2002-2017
10.22P	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older Who Received Mental Health Services in Past Year, by Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
10.23C	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2008-2017
10.23D	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Standard Errors of Percentages, 2008-2017
10.23P	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Any Mental Illness Who Received Mental Health Services in Past Year, by Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.24C	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2008-2017
10.24D	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Mental Health Services in Past Year, by Age Group: Standard Errors of Percentages, 2008-2017
10.24P	Number of Types of Mental Health Services Received in Past Year among Persons Aged 18 or Older with Past Year Serious Mental Illness Who Received Mental Health Services in Past Year, by Age Group: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.25C	Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2002-2017
10.25D	Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2002-2017

## LIST OF TABLES (Continued)

### Table

- 10.25P Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
- 10.26C Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness and Age Group: Standard Errors of Numbers in Thousands, 2008-2017
- 10.26D Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness and Age Group: Standard Errors of Percentages, 2008-2017
- 10.26P Perceived Unmet Need for Mental Health Services in Past Year among Persons Aged 18 or Older, by Past Year Level of Mental Illness and Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
- 10.27C Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2002-2017
- 10.27D Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Standard Errors of Percentages, 2002-2017
- 10.27P Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
- 10.28C Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Any Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2008-2017
- 10.28D Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Any Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Standard Errors of Percentages, 2008-2017
- 10.28P Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Any Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
- 10.29C Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Serious Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Standard Errors of Numbers in Thousands, 2008-2017
- 10.29D Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Serious Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: Standard Errors of Percentages, 2008-2017
- 10.29P Receipt of Mental Health Services in Past Year among Persons Aged 18 or Older with a Past Year Serious Mental Illness and a Perceived Unmet Need for Mental Health Services in Past Year, by Age Group: *P* Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
- 10.30C Major Depressive Episode in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2005-2017
- 10.30D Major Depressive Episode in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2005-2017
- 10.30P Major Depressive Episode in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2005-2016
- 10.31C Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2009-2017
- 10.31D Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2009-2017
- 10.31P Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: *P* Values from Tests of Differences of Percentages, 2017 Versus 2009-2016
- 10.32C Received Treatment for Depression in Past Year among Persons Aged 18 or Older with a Past Year Major Depressive Episode, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2009-2017

## LIST OF TABLES (Continued)

### Table

10.32D	Received Treatment for Depression in Past Year among Persons Aged 18 or Older with a Past Year Major Depressive Episode, by Demographic Characteristics: Standard Errors of Percentages, 2009-2017
10.32P	Received Treatment for Depression in Past Year among Persons Aged 18 or Older with a Past Year Major Depressive Episode, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2009-2016
10.33C	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2008-2017
10.33D	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Standard Errors of Percentages, 2008-2017
10.33P	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.34C	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.34D	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.34P	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.35C	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.35D	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: Standard Errors of Percentages, 2008-2017
10.35P	Had Serious Thoughts of Suicide in Past Year among Persons Aged 18 or Older, by Geographic and Socioeconomic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.36C	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2008-2017
10.36D	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Standard Errors of Percentages, 2008-2017
10.36P	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.37C	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.37D	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.37P	Made Any Suicide Plans in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.38C	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Standard Errors of Numbers in Thousands, 2008-2017
10.38D	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: Standard Errors of Percentages, 2008-2017
10.38P	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Detailed Age Category: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.39C	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.39D	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.39P	Attempted Suicide in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016
10.40C	Serious Psychological Distress in Past Month among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2008-2017
10.40D	Serious Psychological Distress in Past Month among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2008-2017
10.40P	Serious Psychological Distress in Past Month among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2008-2016

## LIST OF TABLES (Continued)

### Table

10.41C	Serious Psychological Distress in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2005-2017
10.41D	Serious Psychological Distress in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: Standard Errors of Percentages, 2005-2017
10.41P	Serious Psychological Distress in Past Year among Persons Aged 18 or Older, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2005-2016
11.1C	Sources of Mental Health Services in Past Year among Persons Aged 12 to 17: Standard Errors of Numbers in Thousands, 2002-2017
11.1D	Sources of Mental Health Services in Past Year among Persons Aged 12 to 17: Standard Errors of Percentages, 2002-2017
11.1P	Sources of Mental Health Services in Past Year among Persons Aged 12 to 17: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2002-2016
11.2C	Had at Least One Major Depressive Episode in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2004-2017
11.2D	Had at Least One Major Depressive Episode in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Standard Errors of Percentages, 2004-2017
11.2P	Had at Least One Major Depressive Episode in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2004-2016
11.3C	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2004-2017
11.3D	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode, by Demographic Characteristics: Standard Errors of Percentages, 2004-2017
11.3P	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2004-2016
11.4C	Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode: Standard Errors of Numbers in Thousands, 2004-2017
11.4D	Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode: Standard Errors of Percentages, 2004-2017
11.4P	Type of Treatment Received in Past Year for Depression among Persons Aged 12 to 17 with a Past Year Major Depressive Episode: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2004-2016
11.5C	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2006-2017
11.5D	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: Standard Errors of Percentages, 2006-2017
11.5P	Had at Least One Major Depressive Episode with Severe Impairment in Past Year among Persons Aged 12 to 17, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2006-2016
11.6C	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode with Severe Impairment, by Demographic Characteristics: Standard Errors of Numbers in Thousands, 2006-2017
11.6D	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode with Severe Impairment, by Demographic Characteristics: Standard Errors of Percentages, 2006-2017
11.6P	Receipt of Treatment for Depression in Past Year among Persons Aged 12 to 17 with a Past Year Major Depressive Episode with Severe Impairment, by Demographic Characteristics: <i>P</i> Values from Tests of Differences of Percentages, 2017 Versus 2006-2016
12.1C	Standard Errors of Numbers (in Thousands) of Persons Aged 12 or Older, by Gender and Detailed Age Category: 2016 and 2017
12.2C	Standard Errors of Numbers (in Thousands) of Persons Aged 12 or Older, by Age Group and Demographic Characteristics: 2016 and 2017

## LIST OF TABLES (Continued)

### Table

- |       |   |
|-------|---|
| 12.3C | Standard Errors of Numbers (in Thousands) of Persons Aged 12 or Older, by Underage and Legal Drinking Age Groups and Demographic Characteristics: 2016 and 2017                     |
| 12.4C | Standard Errors of Numbers (in Thousands) of Persons Aged 12 or Older, by Age Group and Geographic, Socioeconomic, and Health Characteristics: 2016 and 2017                        |
| 12.5C | Standard Errors of Numbers (in Thousands) of Persons Aged 12 or Older, by Underage and Legal Drinking Age Groups and Geographic and Socioeconomic Characteristics: 2016 and 2017    |
| 12.6C | Standard Errors of Numbers (in Thousands) of Persons Aged 12 or Older, by Youth and Adult Demographic Characteristics: 2002-2017  |
| 12.7C | Standard Errors of Numbers (in Thousands) of Females Aged 15 to 44, by Pregnancy Status and Demographic, Socioeconomic, and Pregnancy Characteristics: 2016 and 2017                |
| 12.8C | Standard Errors of Numbers (in Thousands) of Persons Aged 18 to 22, by College Enrollment Status and Demographic Characteristics: 2016 and 2017                                     |
| 12.9C | Standard Errors of Numbers (in Thousands) of Persons Aged 18 or Older, by Past Year Probation and Parole/Supervised Release Statuses and Demographic Characteristics: 2016 and 2017 |

\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> Includes *hydrocodone products* (Vicodin<sup>®</sup>, Lortab<sup>®</sup>, Norco<sup>®</sup>, Zohydro<sup>®</sup> ER, generic hydrocodone, or other similar products); *oxycodone products* (OxyContin<sup>®</sup>, Percocet<sup>®</sup>, Percodan<sup>®</sup>, Roxicodone<sup>®</sup>, generic oxycodone, or other similar products); *tramadol products* (Ultram<sup>®</sup>, Ultram<sup>®</sup> ER, Ultracet<sup>®</sup>, generic tramadol, generic extended-release tramadol, or other similar products); *codeine products* (Tylenol<sup>®</sup> with codeine 3 or 4, generic codeine pills, or other similar products); *morphine products* (Avinza<sup>®</sup>, Kadian<sup>®</sup>, MS Contin<sup>®</sup>, generic morphine, generic extended-release morphine, or other similar products); *fentanyl products* (Duragesic<sup>®</sup>, Fentora<sup>®</sup>, generic fentanyl, or other similar products); *buprenorphine products* (Suboxone<sup>®</sup>, generic buprenorphine, generic buprenorphine plus naloxone, or other similar products); *oxymorphone products* (Opana<sup>®</sup>, Opana<sup>®</sup> ER, generic oxymorphone, generic extended-release oxymorphone, or other similar products); *meperidine products* (Demerol<sup>®</sup> or other similar products); *hydromorphone products* (Dilaudid<sup>®</sup> or generic hydromorphone, Exalgo<sup>®</sup> or generic extended-release hydromorphone, or other similar products); *methadone products* (methadone or other similar products); or any other prescription pain reliever. NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> Includes *hydrocodone products* (Vicodin<sup>®</sup>, Lortab<sup>®</sup>, Norco<sup>®</sup>, Zohydro<sup>®</sup> ER, generic hydrocodone, or other similar products); *oxycodone products* (OxyContin<sup>®</sup>, Percocet<sup>®</sup>, Percodan<sup>®</sup>, Roxicodone<sup>®</sup>, generic oxycodone, or other similar products); *tramadol products* (Ultram<sup>®</sup>, Ultram<sup>®</sup> ER, Ultracet<sup>®</sup>, generic tramadol, generic extended-release tramadol, or other similar products); *codeine products* (Tylenol<sup>®</sup> with codeine 3 or 4, generic codeine pills, or other similar products); *morphine products* (Avinza<sup>®</sup>, Kadian<sup>®</sup>, MS Contin<sup>®</sup>, generic morphine, generic extended-release morphine, or other similar products); *fentanyl products* (Duragesic<sup>®</sup>, Fentora<sup>®</sup>, generic fentanyl, or other similar products); *buprenorphine products* (Suboxone<sup>®</sup>, generic buprenorphine, generic buprenorphine plus naloxone, or other similar products); *oxymorphone products* (Opana<sup>®</sup>, Opana<sup>®</sup> ER, generic oxymorphone, generic extended-release oxymorphone, or other similar products); *meperidine products* (Demerol<sup>®</sup> or other similar products); *hydromorphone products* (Dilaudid<sup>®</sup> or generic hydromorphone, Exalgo<sup>®</sup> or generic extended-release hydromorphone, or other similar products); *methadone products* (methadone or other similar products); or any other prescription pain reliever. Over-the-counter drugs are not included.

<sup>2</sup> Includes use or misuse of pain relievers containing other active ingredients. Reports of misuse of "any other prescription pain reliever" that correspond only to the specific pain reliever categories shown in the table are excluded from estimates for Any Other Prescription Pain Reliever and are included instead in the relevant pain reliever category. Due to changes in how these reports of misuse of "any other prescription pain reliever" were assigned, the 2016 estimates may differ from previously published estimates.

\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> Includes *amphetamine products* (Adderall<sup>®</sup>, Adderall<sup>®</sup> XR, Dexedrine<sup>®</sup>, Vyvanse<sup>®</sup>, generic dextroamphetamine, generic amphetamine-dextroamphetamine combinations, generic extended-release amphetamine-dextroamphetamine combinations, or similar products); *methylphenidate products* (Ritalin<sup>®</sup>, Ritalin<sup>®</sup> LA, Concerta<sup>®</sup>, Daytrana<sup>®</sup>, Metadate CD, Metadate ER, Focalin, Focalin XR, generic methylphenidate, generic extended-release methylphenidate, generic dexmethylphenidate, generic extended-release dexmethylphenidate, or similar products); *anorectic (weight-loss) stimulants* (Didrex<sup>®</sup>, benzphetamine, Tenuate<sup>®</sup>, diethylpropion, phendimetrazine, phentermine or similar products); *modafinil products* (Provigil<sup>®</sup> or other similar products); or any other prescription stimulant.

<sup>2</sup> Includes amphetamine and methylphenidate products that are primarily prescribed for the treatment of attention-deficit/hyperactivity disorder (ADHD). Vyvanse<sup>®</sup> is included with amphetamine products because its active ingredient (lisdexamfetamine) is metabolized to dextroamphetamine.

<sup>3</sup> Includes use or misuse of stimulants containing other active ingredients. Reports of misuse of "any other prescription stimulant" that correspond only to the specific stimulant categories shown in the table are excluded from estimates for Any Other Prescription Stimulant and are included instead in the relevant stimulant category. Due to changes in how these reports of misuse of "any other prescription stimulant" were assigned, the 2016 estimates may differ from previously published estimates.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>a</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>b</sup> The difference between this estimate and the 2017 estimate is statistically significant at the .01 level. Rounding may make the estimates appear identical.

<sup>1</sup> Includes *zolpidem products* (Ambien<sup>®</sup>, Ambien<sup>®</sup> CR, generic zolpidem, generic extended-release zolpidem, or similar products); *eszopiclone products* (Lunesta<sup>®</sup>, generic eszopiclone, or similar products); *zaleplon products* (Sonata<sup>®</sup>, generic zaleplon, or similar products); *benzodiazepine sedatives* (see footnote 2); *barbiturates* (Butisol<sup>®</sup>, Seconal<sup>®</sup>, phenobarbital, or similar products); or any other prescription sedative.

<sup>2</sup> Includes *flurazepam products* (flurazepam [also known as Dalmane<sup>®</sup>] or other similar products), *temazepam products* (Restoril<sup>®</sup>, generic temazepam, or other similar products); *triazolam products* (Halcion<sup>®</sup>, generic triazolam, or other similar products); or other benzodiazepine sedatives that were specified for misuse of "any other prescription sedative."

<sup>3</sup> Includes use or misuse of sedatives containing other active ingredients. Reports of misuse of "any other prescription sedative" that correspond only to the specific sedative categories shown in the table are excluded from estimates for Any Other Prescription Sedative and are included instead in the relevant sedative category. Due to changes in how these reports of misuse of "any other prescription sedative" were assigned, the 2016 estimates may differ from previously published estimates.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

<sup>2</sup> Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

<sup>3</sup> Prescription Psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> The Other Employment category includes students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Illicit Drug Use in Lifetime includes the misuse of prescription psychotherapeutics even though those estimates are not reported due to potential underreporting in lifetime prescription psychotherapeutics estimates.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> The Other Employment category includes students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> The Other Employment category includes students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> The Other Employment category includes students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> The Other Employment category includes students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force.

NOTE: Opioid misuse refers to the use of heroin or the misuse of prescription pain relievers. Misuse of prescription pain relievers is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription pain relievers do not include over-the-counter drugs.

<sup>1</sup> The Other Employment category includes students, persons keeping house or caring for children full time, retired or disabled persons, or other persons not in the labor force.

NOTE: Illicit Drug Use includes the misuse of prescription psychotherapeutics or the use of marijuana, cocaine (including crack), heroin, hallucinogens, inhalants, or methamphetamine.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Prescription psychotherapeutics include pain relievers, tranquilizers, stimulants, or sedatives and do not include over-the-counter drugs.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Any Use of prescription psychotherapeutics is defined as (a) the use of one's own prescription medication as directed by a doctor or (b) misuse of prescription psychotherapeutics. Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

NOTE: Misuse of prescription psychotherapeutics is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription psychotherapeutics do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.

\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Opioid misuse refers to the use of heroin or the misuse of prescription pain relievers. Misuse of prescription pain relievers is defined as use in any way not directed by a doctor, including use without a prescription of one's own; use in greater amounts, more often, or longer than told; or use in any other way not directed by a doctor. Prescription pain relievers do not include over-the-counter drugs.

<sup>1</sup> County Type is based on the 2013 Rural-Urban Continuum Codes.

<sup>2</sup> Estimates are based on a definition of Poverty Level that incorporates information on family income, size, and composition and is calculated as a percentage of the U.S. Census Bureau's poverty thresholds. Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>3</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>4</sup> CHIP is the Children's Health Insurance Program. Individuals aged 19 or younger are eligible for this plan.

<sup>5</sup> Other Health Insurance is defined as having Medicare, CHAMPUS, TRICARE, CHAMPVA, the VA, military health care, or any other type of health insurance.
